FOREWORD FROM DEPUTY VICE-CHANCELLOR (ACADEMIC & INTERNATIONAL)

Assalamualaikum Warahmatullahi Wabarakatuh.

Alhamdulillah, we are grateful to Allah S.W.T because, with His abundant grace and permission. I am honored to contribute a few words to the Postgraduate Handbook of the Faculty of Dentistry. Congratulations on the successful completion of this invaluable handbook. The dedication and unwavering commitment poured into this endeavor have culminated in its realization as envisioned. My heartfelt thanks go out to all those who have played a pivotal role in achieving this accomplishment.

This handbook stands as a testament to Universiti Malaya's resolute commitment to providing comprehensive guidance on the educational journey within these walls. As an institution with the aspiration of leaving a significant imprint on the national educational landscape, we hold a steadfast belief that every postgraduate student at the Faculty of Dentistry will not only thrive in their studies but also achieve mastery in their respective specialized domains. This pursuit of excellence not only fosters personal growth but also propels the advancement of our entire nation.

To realize this noble aspiration, virtues such as diligence, sacrifice, and maturity serve as the bedrock of success for every postgraduate scholar. Furthermore, I invite your attention to Universiti Malaya's dedication to equipping students with innovative ideas, knowledge, and a global perspective, cultivating qualities of profound intellect and entrepreneurial spirit. Regardless of the field of study, UM is unwaveringly committed to unlocking each student's potential, augmenting employability, and nurturing catalysts for transformation. Our vision of prospective greatness encompasses the following objectives:

- To nurture future talent as agents of innovation and change
- To develop a flexible, personalized and interdisciplinary curriculum
- To intensify internationalization and global education

In this regard, let's all carry out the duties and trusts that we are responsible for with full sincerity, whether as educators or students and hopefully, this effort will be blessed by Allah S.W.T and become a righteous charity that we will achieve in the future. God willing. In this regard, let's all carry out the duties and trusts that we are responsible for with full sincerity, whether as educators or students and hopefully, this effort will be blessed by Allah SWT and become a righteous charity that we will achieve in the future.

Thank you.

Wassalam.

Professor Dr Yatimah Alias
Deputy Vice Chancellor (Academic & International)
Universiti Malaya

FOREWORD FROM DEAN

The Faculty warmly welcomes you to be part of this pursuit of academic and professional excellence. The Faculty of Dentistry was established in 1971. This first local dental school undertook the role of training students in Dentistry and later in the various specialties, a function that was previously fulfilled by overseas universities. Graduates of Faculty have become successful practitioners in the private sector or senior specialties and administrators/policy makers in the government services as well as respected academicians.

The Faculty received recognition for its high standard of teaching, research, and professionalism when the General Dental Council of the United Kingdom gave its recognition to the University's Bachelor of Dental Surgery degree in December 1997. The first postgraduate program, the Master of Community

Dentistry was introduced in 1994. This was followed by a Master of Dental Science in 1996. Master in Clinical Dentistry, Master of Orthodontics and Master of Dental Surgery were introduced in 2000. The new 1+3 programme, 1 year Master of Oral Science which leads to 3 years Clinical Doctorate programme in various specialities was started in 2020. These postgraduate courses cover a range of disciplines and are conducted through coursework, mixed mode, clinical and/or research.

The Dental Faculty was recognized by the Royal College of Surgeons of England as a training centre for the Fellowship in Dental Surgery (FDS) in 1989. The first Part 1 examination was conducted in the Faculty in 1993 and the final FDSRCS (Eng) examination in the following year. The Dental Faculty was also recognized as a training hospital that fulfilled the clinical prerequisites of the Membership of the Faculty of Dentistry (MFDS) examinations. The feasibility to sit for the FDSRCS and MFDS (Eng) examination locally had a positive effect on the number of dental practitioners and specialists in the country. It is indeed a privilege for the UM Dental Faculty to be recognized as one of the new 'overseas' training and examination centres by the Royal College of Surgeons of England. The faculty is now a recognised regional centre for Membership of the Joint Dental Faculties (MJDF) Part 1 and 2, Intercollegiate Membership in Orthodontics (IMOrth) Part 1 and 2, and Membership in Restorative Dentistry (MRD) examinations.

Three Master of Clinical Dentistry programmes; Restorative Dentistry in Conservative Dentistry, Restorative Dentistry in Prosthetic Dentistry and Periodontology offered by the Faculty had been recognised as a 'training centre' for the Membership of Restorative Dentistry RCS (Eng) examination. The four-year training programme for the MClint Dent (Child Dental Health) was recognised as being equivalent to 3-years' recognised training in the UK, thus allowing those who have completed the training to sit for the Tri-Collegiate Membership in Paediatric Dentistry. The Master of Orthodontics has been recognized by the Hospital Recognition Committee, The Royal College of England and The Royal College of Surgeons and Physicians of Glasgow as a Training Centre in Orthodontics since 2001.

The postgraduate courses conducted by the Faculty are getting more demand from both local and international students. International students come from many parts of the world such as China, India, Pakistan, Indonesia, Philippines, Thailand, Libya, Iraq, Iran, Brunei, Palestine, Kenya, England, Africa, Yemen, Oman, Bangladesh and Brazil.

Research is an integral part of postgraduate courses and there are currently 7 major research groups, all of them are headed by experienced research leaders. Their research focuses on various niche areas, such as biomaterial technology, oral cancer, oral & craniofacial biology and dentistry, community dentistry, regenerative dentistry, and dental education. The respective research groups and the Heads are as follows:

SEARCH GROUP	HEAD
Biomaterials Technology Research Group (BTRG)	Associate Professor Dr. Noor Azlin Yahya
Oral Cancer Research & Coordinating Centre (OCRCC)	Associate Professor Dr. Zuraiza Mohamad Zaini
Oral & Craniofacial Biology Research Group (OCBRG)	Professor Dr. Ian Charles Paterson
Clinical Craniofacial Dentistry Research Group (CCDRG)	Dr. Cheah Chia Wei
Community Oral Health Research Group (COHRG)	Associate Professor Dr. Jacob John A/L Chiremel Chandy
Regenerative Dentistry Research Group (ReDReG)	Associate Professor Dr. Lim Ghee Seong
Dental Education Research Group (DERG)	Dr. Marhazlinda Jamaludin
Oro-Craniomaxillofacial Research & Surgical Group (OCReS)	Associate Prof. Dr. Firdaus Bin Hariri

The Faculty warmly welcomes you to be part of this pursuit of academic and professional excellence.

Thank you.

Professor Dr Zamri Radzi
Dean, Faculty of Dentistry

FOREWORD FROM DEPUTY DEAN (POSTGRADUATE)

Welcome to all Postgraduate students for the academic session of 2023/2024. We from the Faculty of Dentistry Postgraduate Office would like to wish a very warm welcome and to heartily congratulate all of you for successfully securing admission to this prestigious institution. It has been a year post pandemic since we are able to resume our face-to-face teaching and learning activities.

Every one of you have earned your places here, and you should be proud of yourselves. Please do adhere to the Universiti Malaya's rules and regulations, and never indulge in any unlawful activities. There are various resources and support services available at the Faculty as well as on campus. This includes academic advising, research support, counseling services, libraries, and recreation centers.

I personally encourage you to be independent learners, take active part in extracurricular activities both on and off the campus, and do your very best to excel in every way. We will do our best to create and provide the ultimate learning and research environments for all of you.

We hope that you will strive and work hard to achieve your dreams and goals. It will not be easy, but it will surely be worth it.

Thank you.

Warm regards,

Siti Adibah Othman

MISSION AND VISION

UNIVERSITI MALAYA

Vision

A global university impacting the world.

Mission

Pushing the boundaries of knowledge and nurturing aspiring leaders.

Core Values

Passion
Oneness
Integrity
Sincerity
Empathy

Tagline

Serving the Nation. Impacting the World.

FACULTY OF DENTISTRY

Vision

To be a centre of excellence in oral health science education and research and to function as a catalyst to promote learning and research in dentistry.

Mission

To be a premier faculty in providing a high standard of training and research, to produce caring dental professionals with a holistic approach.

PROGRAMMES OFFERED

ACADEMIC SESSION 2023/2024

Clinical Coursework Programmes

Master of Oral Science
Master of Clinical Dentistry (Oral and Maxillofacial Surgery)

Coursework Programmes

Master of Community Oral Health

Clinical Doctorate Programmes

Doctor in Paediatric Dentistry
Doctor in Special Care Dentistry
Doctor in Oral Maxillofacial Pathology and Oral Medicine
Doctor in Orthodontics
Doctor in Prosthodontics

Research Programmes

Master of Dental Science
Doctor of Philosophy

MASTER OF ORAL SCIENCE

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME COORDINATOR

Dr Zubaidah Zanul Abidin
Department of Restorative Dentistry

2. COURSE COORDINATOR

- **Research Methodology (DSX7001):**

- Associate Professor Dr. Yap Lee Fah,
Department of Oral & Craniofacial Sciences

- **Research Project (DSA7002):**

- Dr. Nurul Zeety binti Azizi
Department of Paediatric Dentistry & Orthodontics

- **Basic Medical Science (DSA7003):**

- Dr. Rabi'ah Al-Adawiyah binti Rahmat,
Department of Oral & Maxillofacial Clinical Sciences

- **Outreach Dentistry (DSA7004):**

- Associate Professor Dr. Jacob John,
Department of Restorative Dentistry

- **Basic Life Support (DSA7005):**

- Associate Professor Dr. Firdaus bin Hariri,
Department of Oral & Maxillofacial Clinical Sciences

- **General Dentistry (DSA7006):**

- Dr. Nurul Aliaa Binti Ahmad Fauzi
Department of Paediatric Dentistry & Orthodontics

- **Orthodontics (DSA7008):**

- Dr. Roziana binti Mohd Razi,
Department of Paediatric Dentistry & Orthodontics

- **Prosthodontics (DSA7009):**

- Associate Professor Dr. Eshamsul bin Sulaiman,

Department of Restorative Dentistry

- **Paediatric Dentistry (DSA7010):**

- Dr. Malina binti Manan
Department of Paediatric Dentistry & Orthodontics

- **Periodontology (DSA7011):**

- Dr. Cheah Chia Wei
Department of Restorative Dentistry

- **Restorative Dentistry (DSA7012):**

- Dr. Nora Sakina binti Mohd Nor,
Department of Restorative Dentistry

- **Applied Oral Pathology (DSA7014):**

- Dr. Goh Yet Ching,
Department of Oral & Maxillofacial Clinical Sciences

3. PROGRAMME OF STUDY

The Master of Oral Science is a full-time clinical programme. It is aimed at providing a learning framework that allows candidates to advance the academic and clinical skills in aspects of general practice dentistry and research skill, in preparation for further specialist doctorate training. It is a prerequisite to the Doctorate Clinical programme. It is also aimed at updating dental practitioners on current advances in clinical practice and issues in the delivery of general practice dentistry. It can also be a pathway for candidates to enter PhD through a research programme.

4. ADMISSION REQUIREMENTS

- (1) A Bachelor's degree or an equivalent degree in Dentistry from local and foreign universities and have at least two (2) years post registration clinical experience in dentistry; AND
- (2) Registered with the Malaysian Dental Council (MDC) and holds current Annual Practicing Certificate (APC) or registered with the dental regulatory body in another country and eligible to be granted a Temporary Practicing Certificate (TPC) by MDC; AND
- (3) Satisfy health and other requirements as required by University of Malaya; AND

- (4) Pass the interview (this is to assess the suitability of candidates under the master clinical programme); AND
- (5) Fulfil the requirements for admission as prescribed by the Faculty; AND
- (6) Fulfils English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the followings):
 - (a) Obtained a minimum score of 600 (paper based test); or score of 250 (computer based test) or score of 100 (internet test) in the Test of English as a Foreign Language (TOEFL); OR
 - (b) Obtained a minimum score of band 6 or band according to programme standard in the International English Language System (IELTS); OR
 - (c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR
 - (d) English Language subject at A-level with Grade C and above; OR
 - (e) Cambridge English: First (FCE) grade C and above; OR
 - (f) Cambridge English: Advance (CAE) Grade C and above; OR
 - (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
 - (h) Malaysian University English Test (MUET) with minimal band 5

5. DURATION OF STUDY

This programme shall extend over a minimum period of one (1) year or two (2) semesters and a maximum period of two (2) years or four (4) semesters.

6. STRUCTURE OF PROGRAMME OF STUDY

- (1) This programme shall consist of the following components, comprising instruction in courses over a period of two (2) semesters:
 - a) Faculty Core Course:

i) Research Methodology

This course comprises two components: Research Methodology and Biostatistics. Students are introduced to basic principles of a research process which prepare them to develop the ability to conduct independent research. The students also learn fundamental computer skills to search and manage information. Basic concepts in biostatistics are covered and supplemented with demonstration sessions using statistical software which enables students to perform basic analysis and presentation of data. The course also provides opportunities for students to develop interpersonal and soft skills through group assignments.

(b) Programme Core Course:

i) Basic Medical Science

This course encompasses the subjects in basic medical science namely anatomy, oral biology, biochemistry, medical microbiology, pathology, pharmacology, and physiology. At the end of this course the trainees will have a sound knowledge in the various subjects of basic medical science such that they will be able to apply this knowledge in their respective specialty courses.

ii) General Dentistry

This course is an integrated overview of general dentistry that covers a multidisciplinary approach. The course will be taught through lectures. Integrated dental knowledge gained from the course will help students prepare for further training in specialty courses.

iii) Basic Life Support

The basic life support (BLS) course is an important component in medicine and dentistry as it exposes practitioners to medical emergencies which can be fatal to patients. The course will be taught through lectures and demonstrations on how to perform cardiopulmonary resuscitation according to international standards. All students will be given the opportunity to undergo practical and

presentation sessions. At the end of the course, students are required to pass and will be awarded the BLS certification.

iv) Outreach Dentistry

Dental postgraduate students enrolled for the MOSc program undertake this community outreach module. The goals of the module are to improve learning, promote civic engagement, and strengthen communities through addressing societal needs. The module provides the learners the opportunity to work directly with members of the community, who commonly experience health inequalities and poor oral health. It also enables them to work as a team to develop and deliver an intervention adapted to needs of the community they are working with. The purpose of this module is to provide students with insight into the health and wellbeing of various population groups and to promote 'social accountability' as a key part of professional practice.

v) Research Project

This course will explain the significance of the research design and implication in the field of dentistry and trainees will display skill of data analysis in producing good research report and adhere to legal, ethical, and professional codes of practice.

(c) Programme Clinical Course (Elective):

i) Paediatric Dentistry

The Paediatric Dentistry Elective course of the Master of Oral Science aims to train candidates preparing to pursue a speciality training programme in the field of Paediatric Dentistry and to subsequently enroll in the Doctor in Paediatric Dentistry (DrPaedDent).

The course encompasses varied academic activities to achieve the learning outcomes while ensuring that candidates take responsibility for their learning, which includes developing the foundational clinical skills required for the specialist in paediatric dentistry through modules based on operative techniques, concepts in basic clinical diagnosis and treatment, multidisciplinary clinics, and basic

surgical skills with emphasis on effective communication, ethics, professionalism, and teamwork

ii) Orthodontics

The structure of the programme shall provide an introduction to the specialty of Orthodontics and prepare the candidates for the Doctor of Orthodontics programme for clinical training in Orthodontic Specialty. This programme shall consist of teaching, basic training, and coursework in Orthodontics.

iii) Restorative Dentistry

The course is designed to include an in-training teaching component where students will be introduced to a broad range of oral sciences pertaining to restorative dentistry through seminars, project assignments, problem solving, practical and clinical sessions. Trainees will then apply the knowledge for diagnosis and management of patients with restorative problems. Through role modelling, they will simulate sensitivity when managing patients as well as develop good ethical conduct. Through continuous seminar presentations and journal clubs, trainees will learn to engage in lifelong learning such that there is the application of evidence-based knowledge in diagnosis and management of restorative problems. This system ensures training of the high standards in the area of applied oral sciences in restorative dentistry.

iv) Periodontology

Students would be taught the basic principles of Periodontology including the normal structures, aetiology, pathogenesis, progression, recognition and treatment of periodontal diseases. They would be trained to take history, perform clinical examination, diagnose and institute initial and advanced treatment of periodontal diseases.

v) Prosthodontics

This training at pre-specialization level in prosthodontics involves the scientific basis of the theoretical, laboratory and operative techniques, and basic clinical instructions in fixed and removable prosthodontics. Emphasis is also placed on the understanding of the relationship of dental materials science, periodontology,

endodontology, operative dentistry and other clinical disciplines relevant to general prosthodontics.

vi) *Oral Maxillofacial Pathology and Oral Medicine*

The course is designed to include an in-training teaching component where trainees will be introduced to clinicopathological characteristics of oral diseases via seminars, project assignments, problem solving, practical and clinical sessions. Trainees will then apply the knowledge in diagnosis and management of patients with oral diseases. Through role modelling, they will simulate sensitivity when managing patients as well as develop good ethical conduct. Continuous seminar presentations and journal clubs will encourage trainees to engage in lifelong learning and ensure practice of evidence-based knowledge during diagnosis and management of oral diseases. This system ensures training of high standards in applied oral pathology.

- (2) The scope of the programme is given in the Course Proforma and Course Information as given by the programme coordinators.

7. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week (subject to change). Candidates who do not complete the registration within that period are not allowed to follow the course.

8. ACADEMIC SUPERVISION

- (1) The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of co-supervisor(s) may be required for the research component.
- (2) The supervisor and co-supervisor for the clinical training shall submit a report on the candidature progress to the Head of Department at the end of each semester.
- (3) The consultant appointed to the candidate shall also submit a report on the candidature clinical progress to the Head of Department at the end of each posting and six months' interval for a posting longer than six months.

9. FIELD OF RESEARCH

The determination of the field of research shall be done prior to the candidate's embarkation on research work.

10. SUBMISSION

A candidate shall submit his/her research report at least ONE month before the commencement date of Final examination.

11. ASSESSMENT & EXAMINATION

There are different types of assessments for each course. The following table describes the assessment criteria for each course, which is categorized into one of the following:

- I. Faculty core course
- II. Programme core course
- III. Programme elective course

COURSES	ASSESSMENT CRITERIA
Faculty Compulsory Course	
Research Methodology	<p><u>Summative assessment</u></p> <ul style="list-style-type: none">• Oral presentation - 50%• Written Report - 50% <p>To pass the course, the candidate must obtain:</p> <ul style="list-style-type: none">• 65% or more of the marks for each component:<ol style="list-style-type: none">i. Oral Presentationii. Written Report <p><u>Re-assessment</u></p> <p>A candidate who has failed (total score <65%) shall be required to re-submit the assignment for assessment and obtain at least 65% mark, within the same candidature period.</p>

Programme Core Course	
Basic Medical Science	<p><u>Examination</u> Written exam (100%):</p> <p>Component A: Short Answer Question (SAQ) - 50% Component B: One Best Answer (OBA) / Extended Matching Question (EMQ) / Multiple Choice Question (MCQ) - 50%</p> <p>To pass the course, the candidate must obtain:</p> <ul style="list-style-type: none"> 65% or more of the total aggregate marks for component A and component B <p><u>Re-assessment</u> A candidate who has failed (total score <65%) shall be required to undergo remedial class and re-examination.</p>
General Dentistry	<p><u>Examination</u> Theory paper Multiple Choice Question (MCQ) paper - 100%</p> <p>To pass the course, the candidate must obtain:</p> <ul style="list-style-type: none"> 65% marks for the theory paper <p><u>Re-assessment</u> A candidate who has not fulfilled the requirement shall be required to undergo remedial class and re-examination.</p>
Basic Life Support	<p><u>Summative Assessment</u> Theory paper – MCQ - 100% Practical test</p> <p>To pass the course, the candidate must:</p> <ul style="list-style-type: none"> achieve 80% or more of the marks for theory paper pass the practical test by correctly demonstrating ALL steps of CPR. (A certificate is awarded upon passing the course) <p><u>Re-assessment</u></p>

	A candidate who has not passed the assessment shall be required to attend remedial class and resit the whole part (written test and practical exam) of the course.
Outreach Dentistry	<p><u>Summative assessment</u></p> <p>Continuous assessment</p> <p>Seminar, oral presentations, and reflective learning - 50%</p> <p>Oral Health Program Course Written Report - 50%</p> <p>To satisfy the requirement of the course, the candidate must:</p> <ul style="list-style-type: none"> • obtain 65% or more of the total marks <p><u>Re-assessment</u></p> <p>A candidate who has not fulfilled the requirement shall be required to re-submit the report.</p>
Research Project	<p><u>Formative Assessment</u></p> <p>(General research topic will be identified at the early part of the programme with the help of discipline coordinator, however most of the research work is carried out in second half of the term)</p> <ul style="list-style-type: none"> • Evaluation and feedbacks through student-supervisors interaction • Research proposal writing, presentation, and ethics application (where appropriate) <p><u>Summative Assessment (100%)</u></p> <ul style="list-style-type: none"> • Research report - 70% • Viva-voce - 30%
Programme Clinical Course (Elective)	
Orthodontics	<p>Continuous assessment (40%)</p> <ul style="list-style-type: none"> • Practical (wire bending) - 10% • Clinical work - 10% • Case/seminar presentation - 20% <p>Final examination (60%)</p> <p>Written exam:</p> <ul style="list-style-type: none"> • Essay/MEQ - 35%

	<ul style="list-style-type: none"> • Clinical examination - 25%
Paediatric Dentistry	<p>Continuous assessment (40%)</p> <ul style="list-style-type: none"> • Preclinical work - 12% • Clinical work - 12% • Seminars/ Assignments - 16% <p>Final examination (60%)</p> <ul style="list-style-type: none"> • Written exam: essay - 30% • Clinical viva voce - 30%
Prosthodontics	<p>Continuous assessment (40%)</p> <ul style="list-style-type: none"> • Assignment - 10% • Lab work/ clinical logbook - 25% • Theory paper - 5% <p>Final examination (60%)</p> <ul style="list-style-type: none"> • Written exam: essay - 35% • Clinical exam/ viva voce/ MCQ/OBA - 25%
Periodontology	<p>Continuous assessment (40%)</p> <ul style="list-style-type: none"> • Assignment - 10% • Theory Paper - 20% • Critical Appraisal - 10% <p>Final examination (60%)</p> <ul style="list-style-type: none"> • Written exam: essay - 35% • Clinical exam/Viva voce - 25%
Applied Oral Pathology	<p>Continuous assessment (40%)</p> <ul style="list-style-type: none"> • Seminars and clinicopathological conferences - 15% • Oral Pathology Practical session, Oral Pathology Diagnostic session - 10% • Assignment writing - 15% <p>Final exam (60%) Written exam</p>

Restorative Dentistry	Continuous assessment (40%) <ul style="list-style-type: none">• Assignment - 10%• Lab work/ clinical logbook - 25%• Theory paper - 5%
	Final examination (60%) <ul style="list-style-type: none">• Written exam: essay - 35%• Clinical exam/ viva voce/ MCQ/OBA - 25%

(1) Exemption from Basic Medical Science Examination:

A candidate may be exempted from the Basic Medical Science course examination if he/she has passed:

(a) the examination for Membership of either:

Membership of the Joint Dental Faculty Royal College of Surgeons of England [MJDF RCS (England)]; or

Membership of the Faculty of Dental Surgery Royal College of Surgeons of Edinburgh [MFDS RCS (Edinburgh)]; or

Membership of the Faculty of Dental Surgery Royal College Physician and Surgeons of Glasgow [MFDS RCPS (Glasgow)]; or

Membership of the Faculty of Dentistry Royal College of Surgeons in Ireland (MFD RCS (Ireland));

OR

b) the examination of any other colleges that may be approved by the Senate on the recommendation of the Faculty from time to time;

OR

c) the examination of the Basic Medical Sciences of the University of Malaya.

Exemption for sitting this part of the examination for candidates with equivalent professional qualification, however the requirement for at least 80% compulsory attendance for the whole series of lectures is applicable.

For these candidates with the exemption status, in addition to the compulsory attendance at the BMS lectures, they shall be required to attend sessions in respective clinical disciplines equivalent to 6 hours SLT (which is the SLT for BMS examination).

(2) Examination Assessment

Marking Scheme

- (a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	
70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 -59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

(3) Requirements for Passing an Examination

(a) Basic Medical Science Examination

A candidate shall be deemed to have passed the above examination if he has obtained:

- 65% or more of the aggregate combined marks for component A and B

Candidates with redeemable marks (60 – 64%) must attend a borderline viva voce. In passing the borderline viva voce, the marks will be upgraded to a pass mark of 65%.

Re-Examination

A candidate who has failed may be required:

- To undergo remedial class; and
- Permitted a re-examination on ONE occasion only within the same candidature period
- Re-examination shall consist of the same components and shall be assessed and graded in the same manner as prescribed for the main examination

(b) Final Professional Examination

The professional Examination in this programme consist of 2 parts:

Part 1: Clinical Course

A candidate shall be deemed to have passed this examination, if he/she pass the Clinical Course (elective) which he/she has enrolled at the beginning of the programme and obtains:

- 65% or more of the aggregate combined marks of continuous assessment and summative assessment marks

Re-examination

A candidate who has failed this part of the examination, shall be required:

- To undergo remedial class; and
- Permitted a re-examination on ONE occasion only within the same candidature period

A candidate who has failed the re-examination, shall be permitted on the recommendation of the Board of Examiners to repeat the course.

Part 2: Research Project

To pass the course, the candidate must obtain:

- 65% or more of the aggregate combined marks for component A and component B

Re-examination

A candidate who has failed this part of the examination, shall be required:

- Failure to obtain a pass, may require resubmission with correction of the research report according to the recommendation of the boards of examiners
- Re-evaluation of the research report with supervisor's verification by the internal examiner
- A candidate who failed to submit his/her research report by the end of the prescribed period for re-examination or whose research report fails to satisfy the Committee of Examiners after re-submission, shall be deemed to have failed the re-examination in the research report.

12. AWARD OF THE DEGREE

A candidate may be awarded the degree of Master of Oral Science if he/she passed:

- (a) Research Methodology examination; AND
- (b) Basic Medical Science examination or has obtained the exemption; AND
- (c) General Dentistry examination; AND
- (d) Basic Life Support examination: AND
- (e) Outreach Dentistry examinations; AND

(f) Final Professional Examination

Part 1: Selected Clinical Course (Elective) as listed below:

- Orthodontics; OR
- Paediatric Dentistry; OR
- Periodontology; OR
- Prosthodontics; OR
- Restorative Dentistry; OR
- Applied Oral Pathology.

Part 2: Research Project; AND

(g) Satisfy the language requirements set by the university; AND

(h) Satisfy other requirements of the University for Master by Clinical Coursework.

13. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction if he/she has:

- (a) Obtained 80% or more of the combined marks of the Final Examination (clinical course and research); AND
- (b) Not failed any courses of the programme; AND
- (c) Not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

14. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Master of Oral Science (MOSc) (with Distinction) if he/she has:

- a) passed with at least Distinction in the Research Methodology course and all programme core courses; AND passed with Distinction in the Final Professional

examination for the degree of Master of Oral Science (MOSc) as prescribed above; and

- b) not repeated any part of the programme of study leading to the Final Professional examination except on medical or compassionate grounds acceptable to the Faculty.
- c) Not failed any component/subcomponent of the prescribed examinations; and
- d) completed the programme of study in a period not exceeding two (2) ordinary semesters from the initial semester of candidate registration.

MASTER OF CLINICAL DENTISTRY (ORAL AND MAXILLOFACIAL SURGERY)

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME OF STUDY

The Master of Clinical Dentistry (Oral and Maxillofacial Surgery) programme is a clinical coursework with 30% research component.

2. ADMISSION REQUIREMENTS

- (1) A Bachelor's degree or an equivalent degree in Dentistry from local and foreign universities and have at least two (2) years post registration clinical experience in dentistry; AND
- (2) Registered with the Malaysian Dental Council (MDC) and holds current Annual Practicing Certificate (APC) or registered with the dental regulatory body in another country and eligible to be granted a Temporary Practicing Certificate (TPC) by MDC; AND
- (3) Satisfy health and other requirements as required by University of Malaya; AND
- (4) Pass the interview (this is to assess the suitability of candidates under the master clinical program); AND
- (5) Fulfil the requirements for admission as prescribed by the Faculty; AND
- (6) Fulfils English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the followings):
 - (a) Obtained a minimum score of 600 (Paper Based Test); or score of 250 (computer-based test) or score of 100 (internet test) in the Test of English as a Foreign Language (TOEFL); OR
 - (b) Obtained a minimum score of band 6 or band according to programme standard in the International English Language System (IELTS); OR

- (c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR
- (d) English Language subject at A-level with Grade C and above; OR
- (e) Cambridge English: First (FCE) grade C and above; OR
- (f) Cambridge English: Advance (CAE) Grade C and above; OR
- (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
- (h) Malaysian University English Test (MUET) with minimal band 5

3. DURATION OF STUDY

This programme shall extend over a minimum period of eight (8) semesters and a maximum period of twelve (12) semesters.

4. STRUCTURE OF PROGRAMME OF STUDY

- (a) Programme Learning Outcome

PO1 (Knowledge)	Apply scientific evidence-based knowledge in the diagnosis and management of health problems in the field of Oral and Maxillofacial Surgery in a holistic way.
PO2 (Practical Skills)	Display the ability to perform and articulate specific clinical and surgical procedures.
PO3 (Social Skills and responsibility)	Identify and build rapport with patients and the public in promoting oral and maxillofacial health.
PO4 (Values, Attitudes and Professionalism)	Comply with relevant legal requirements and professional ethics to the practice of Oral and Maxillofacial Surgery and demonstrate good values and attitudes in patient management and other professional activities.
PO5	Communicate effectively with their colleagues, other healthcare professionals, relevant agencies, patients and

(Communication, Leadership and teamwork skills)	the community and practice good leadership and effective team working skills in promoting Oral and Maxillofacial health.
PO6 (Problem solving & Scientific skills)	Critically appraise and utilize advances in scientific knowledge for the benefit of patients and the profession.
PO7 (Information management and lifelong learning skills)	Organize updated information by engaging in lifelong learning and continuing professional development to update their knowledge and skills.
PO8 (Managerial and entrepreneurial skills)	Apply entrepreneurship principles and good managerial skills in promoting oral & maxillofacial health.

(b) This programme shall consist of THREE parts:

(a) Part I: comprising instruction in courses over a period of two (2) semesters.

- (i) Basic Medical Science;
- (ii) General Dentistry;
- (iii) Information and Communication Technology (ICT), Research Methodology and Biostatistics;

(b) Part II over a period of five (5) semesters comprising of:

- (i) Teaching, training, and coursework in the specialty; and
- (ii) Research component leading to the submission of a research report.

(c) Part III consists of clinical attachment in the specialty option, in the Faculty of Dentistry, University of Malaya or clinical training centre recognized by the University over a period of two (2) semesters.

(c) The scope of the programme is given in the Course Proforma and Course Information as given by the department carrying out the specialty programme.

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. ACADEMIC SUPERVISION

- 1) The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of co-supervisor(s) may be required for the research component.
- 2) The supervisor and co-supervisor for the clinical training shall submit a report on the candidature progress to the Head of Department at the end of each semester.
- 3) The consultant appointed to the candidate shall also submit a report on the candidature clinical progress to the Head of Department at the end of each posting and six months' interval for a posting longer than six months.

7. FIELD OF RESEARCH

The determination of the field of research shall be done prior to the candidate's embarkation on research work.

8. SUBMISSIONS

- 1) A candidate shall submit his/her research report at least ONE month before the commencement date of Part II examination.
- 2) A candidate shall submit his/her logbook by the date prescribed by the department prior to the examination.

9. EXAMINATION

- 1) The examination leading to the degree of Master of Clinical Dentistry (Oral Maxillofacial Surgery) by clinical coursework shall be the:
 - (a) Part I examination;
 - (b) Part II examination; and
 - (c) Final examination.

- 2) No candidate shall be permitted to sit for the Part I examination unless he/she has attended to the satisfaction of the Faculty, the lectures extending over a period of six months, in Basic Medical Sciences.
- 3) No candidate shall be permitted to sit for the Part II examination unless he/she has:
 - (a) passed or been exempted from the Part I examination. A candidate may be exempted from the Part I examination if he/she has passed:
 - (i) the examination for Membership of either:

Membership of the Joint Dental Faculty Royal College of Surgeons of England [MJDF RCS (England)]; or

Membership of the Faculty of Dental Surgery Royal College of Surgeons of Edinburgh [MFDS RCS (Edinburgh)]; or

Membership of the Faculty of Dental Surgery Royal College Physician and Surgeons of Glasgow [MFDS RCPS (Glasgow)]; or

Membership of the Faculty of Dentistry Royal College of Surgeons in Ireland (MFD RCS (Ireland));

OR

 - (ii) the examination of any other colleges that may be approved by the Senate on the recommendation of the Faculty from time to time;

OR

 - (iii) the examination of the Basic Medical Sciences of the University of Malaya.

AND
 - (b) submitted his/her research report not later than **ONE** month before the Part II examination.

AND

- (c) obtained at least 60% marks of the continuous assessment component of the Part II examination.
- 4) No candidate shall be permitted to proceed to the Final examination unless he has:
 - (a) passed the Part II examination; and
 - (b) submitted his/her logbook and surgical journal for examination not later than **ONE (1)** month before the Final examination.
- 5) The Part I examination shall be held at the end of the Part I programme of study. The Part II examination shall be held at the end of the Part II programme of study. The Final examination shall be held at the end of the Part III programme of study.
- 6) Examination Components and Allocation of Marks
 - (a) Part I Examination
 - (i) The components of the Part I examination and the marks to be allocated to each component shall be as follows:

Component	Subcomponent	Allocation of Marks (Maximum)
Component A	Paper I – Multiple Choice Questions (MCQ)	50
Component B	Paper II – Short Answer Questions (SAQ)	50
	Grand Total	100

- (ii) Candidate has to satisfy the requirements for other courses registered for this part of the programme.
 - (b) Part II Examination
 - (i) The components of the Part II examination and the marks to be allocated to each component shall be as follows:

Component	Subcomponent	Allocation of Marks (Maximum)
Component A	Continuous Assessment	60
Component B	i. Written paper	70
	ii. Clinical/practical and viva voce	70
Component C	Research report and viva voce	100
	Grand Total	300

(ii) Candidate has to satisfy the requirements for other courses registered for this part of the programme.

(c) Final Examination

The components of the Final examination and the marks to be allocated to each component shall be as follows:

Component	Allocation of Marks (Maximum)
(i) Logbook and Continuous Assessment	60
(ii) Practical+/Clinical+/Viva voce	40
Grand Total	100

7) Examination Assessment

Marking Scheme

(a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction

75.00 – 79.99	A-	3.70	Pass
70.00 – 74.99	B+	3.30	
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 – 59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
30.00 – 34.99	F	0.00	
00.00 – 34.99	F	0.00	

(b) For the Part I examination:

- (i) candidates who obtained 60-64 marks must attend the viva voce conducted by the related examiner(s); and
- (ii) if the candidate shows satisfactory performance, the marks will be raised to 65 upon recommendation by the examiners.

8) Requirements for Passing an Examination

A candidate shall be deemed to have passed the examinations prescribed below if he has obtained:

(a) Part I Examination

65% or more of the marks for each of the Component A and Component B of the Part I examination.

(b) Part II Examination

- (i) 65% or more of the aggregate combined marks for Component A, Component B and Component C of the Part II examination;

(ii) 60% or more of the marks for each of the subcomponent (i) and (ii) of Component B of the Final examination; and

(iii) 65% or more of the marks for Component C of the Final examination.

(c) Final Examination

65% or more of the aggregate combined marks for components of this examination.

9) Repeating an Examination

(a) Part I Re-Examination

(i) A candidate who has failed the Part I examination may be permitted a repeat examination on one occasion only after repeating such parts of the course over a period of time as determined by the Committee of Examiners and approved by the Faculty.

(ii) The Part I Re-examination shall consist of the same components and shall be assessed and graded in the same manner as prescribed for the main Part I examination.

(iii) A candidate who fails the Part I Re-examination shall be deemed to have failed the Part I examination but shall be permitted, on the recommendation of the Committee of Examiners and with approval of the Faculty of Dentistry, to repeat the Part I of the programme of study.

(iv) A candidate who fails the Part I examination after repeating his/her programme of study shall be terminated from the Master of Clinical Dentistry (Oral and Maxillofacial Surgery) degree programme and be refused re-admission to the programme.

(b) Part II Re-Examination

(i) (A) A candidate who has failed **Component B and Component C** of the Part II examination may be permitted a re-examination on two occasions after repeating such parts of the course over a period of time as may be determined by the Committee of Examiners and approved by the Faculty.

- (B) A candidate who has failed either **Component B or Component C** of the Part II examination may be granted a provisional pass in the component that he/she has passed and be required to re-sit on two occasions, only the component that he/she has failed after repeating such parts of the course over a period of time as may be determined by the Committee of Examiners and approved by the Faculty.
- (ii) The Part II **re-examination** shall be assessed and graded in the same manner as prescribed for the main Part II Examination.
 - (iii) A candidate's research report that is deemed unsatisfactorily by the Committee of Examiners may be referred for further work over a period of time to be determined by the Committee of Examiners except that such periods of time as determined, shall not exceed one year on any one occasion. At the end of the prescribed period the candidate shall be required to **re-submit** the research report for re-examination.
 - (iv) A candidate who failed to submit his/her research report by the end of a prescribed period for re-examination or whose research report after re-submission, fails to satisfy the Committee of Examiners, shall be deemed to have failed the re-examination in the research report.
 - (v) A candidate shall not be permitted to submit the research report for re-examination on more than two occasions.
 - (vi) A candidate who fails the Part II re-examination on the second occasion shall be deemed to have failed the Part II examination and shall not be permitted to repeat the programme of study except in special circumstances on the recommendation of the Faculty of Dentistry and with the approval of Senate.
- (c) Final Re-Examination
- (i) A candidate who has failed the Final examination may be permitted a repeat examination on one occasion only after repeating such parts of the course over a period of ONE year except in special circumstances on the recommendation of the Faculty of Dentistry and such period of time as determined, shall not exceed one year.

- (ii) A candidate who has failed the Final re-examination shall be deemed to have failed the Final examination and shall not be permitted to repeat the programme of study except in special circumstances on the recommendation of the Faculty of Dentistry and with the approval of the Senate.
- (d) A candidate who has passed the re-examination for the examinations mentioned above shall be deemed to have passed the prescribed examinations.

10. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction in the Part I examination, Part II examination or the Final examination if he has:

- (a) Obtained 80% or more of the aggregate combined marks of the components and at least 75% or more of the marks of each component in the prescribed examinations;
- (b) Not failed any component of the prescribed examinations; and;
- (c) Not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

11. AWARD OF THE DEGREE

A candidate may be awarded the degree of Master of Clinical Dentistry (Oral Maxillofacial Surgery) if he has:

- (a) passed the Part I, Part II and Final Examination for the degree of Master of Clinical Dentistry (Oral Maxillofacial Surgery) as prescribed above; and
- (b) satisfactorily fulfilled the requirements for courses in Information and Communication Technology (ICT); Research Methodology and Biostatistics; and General Dentistry.

12. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Master of Clinical Dentistry (Oral Maxillofacial Surgery) (with Distinction) if he has:

- (a) passed with Distinction in the Part II examination and Final examination for the degree of Master of Clinical Dentistry (Oral Maxillofacial Surgery) as prescribed above; and
- (b) Not repeated the Part I examination, Part II examination or the Final examination or any part of the programme of study leading to Part I examination, the Part II examination or the Final examination except on medical or compassionate grounds acceptable to the Faculty.

MASTER OF COMMUNITY ORAL HEALTH

MODE: BY COURSEWORK

1. PROGRAMME CLASSIFICATION

This master's degree programme by coursework is 42 credits; 39 credits (92.9%) core courses and 3 credits (7.1%) elective courses. This is a one-year full time course comprising 2 semesters and one special semester. The maximum period of candidature is 8 semesters and 4 special semesters.

2. ADMISSION REQUIREMENTS

- (1) A Bachelor's degree or an equivalent degree in Dentistry from local and foreign universities; priority is for candidates with a CGPA at least 3.0 and above or its equivalent, and have at least two (2) years post-registration clinical experience in dentistry; AND
- (2) Registered with the Malaysian Dental Council (MDC) and holds current Annual Practicing Certificate (APC) or registered with the dental regulatory body in another country and eligible to be granted a Temporary Practicing Certificate (TPC) by MDC; AND
- (3) Satisfy health and other requirements as required by University of Malaya; AND
- (4) Pass the interview (this is to assess the suitability of candidates under the master clinical programme); AND
- (5) Fulfil the requirements for admission as prescribed by the Faculty/ Department from time to time; AND
- (6) Fulfil English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the followings):
 - (a) Obtained a minimum score of 600 (Paper-based test); or a score of 250 (Computer-based test) or a score of 100 (internet test) in the Test of English as a Foreign Language (TOEFL); OR

- (b) Obtained a minimum score of band 6 or band according to the programme standard in the International English Language System (IELTS); OR
- (c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR
- (d) English Language subject at A-level with Grade C and above; OR
- (e) Cambridge English: First (FCE) grade C and above; OR
- (f) Cambridge English: Advance (CAE) Grade C and above; OR
- (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
- (h) Malaysian University English Test (MUET) with minimum band 5

3. DURATION OF STUDY

This programme shall extend over a minimum period of two (2) semesters + one (1) special semester, and a maximum period of eight (8) semesters + four (4) special semesters.

4. STRUCTURE OF PROGRAMME OF STUDY

- (1) This programme comprises nine (9) core courses, two (2) elective courses, and a research project.
 - (a) Core Courses: Five (5) courses to be successfully completed and passed in the first semester, three (3) courses to be successfully completed and passed in the second semester and one (1) course to be successfully completed in the special semester.
 - (b) Elective Courses: Two (2) elective courses are offered but candidates need to choose and register with only one of them. Classes will be conducted together with candidates registered with the Master of Public Health of Department of Social and Preventive Medicine, Faculty of Medicine, UM. The elective course is to be successfully completed and passed in the first and second semester.
 - (c) Research Project: The research project is taken in the first semester until the second semester.

- (2) The details of each of this programme's courses are given in the Course Proforma and Course Information as given by the Department.

Below are the programme learning outcomes for the Master of Community Oral Health:

Master of Community Oral Health - Programme Learning Outcomes

PLO 1	Demonstrate mastery of knowledge in the field of dental public health.
PLO 2	Apply functional work skills in dental public health practice.
PLO 3	Apply social behavioural theories to dental public health practice to promote behaviour change.
PLO 4	Conduct research related to health services or dental public health discipline.
PLO 5	Demonstrate leadership qualities through communicating and working effectively with peers and stakeholders.
PLO 6	Plan a solution for community oral health problems based on scientific evidence and critical thinking skills.
PLO 7	Manage information for lifelong learning.
PLO8	Adhere to legal, ethical, and professional codes of practice

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. RESEARCH SUPERVISION

- (1) The appointment of a supervisor shall be done at a point a candidate's field of research is approved.
- (2) Where necessary, the appointment of co-supervisor(s) and/or consultant(s) may be done.

7. FIELD OF RESEARCH

The determination of the field of research shall be done prior to a candidate's embarkation on research work.

8. SUBMISSIONS

A candidate shall submit his/her research report at least ONE month before the commencement of the examination date.

Notice for the submission of the research report will be given when the candidate submits the title of the research project for approval.

9. EXAMINATION

- a) The assessment for the examination for the coursework component shall be based on the following grading scheme stipulated in the following regulation:
University of Malaya Rules and Regulations (Master's Degree) 2019.
- b) Candidates' assessment methods consist of formative and summative components and are described below. These assessments represent the integrated assessment of the candidates' cognitive, psychomotor and affective aspects. The assessments include the following:

Continuous assessments

These are continuous assessments for all courses, encompassing various components such as, but not limited to:

- (i) Class tests
- (ii) Seminar presentation
- (iii) Case report
- (iv) Group / individual assignments
- (v) Field reports
- (vi) Practical test
- (vii) Case Study

Research Project Assessments

The research project assessment consists of two components which are:

- (i) Research report
- (ii) Viva-voce

The Master or Community Oral Health programme consists of various courses, and each course has its own specific allocation of weightage for the continuous and final assessments, as indicated below.

DQD 7014 – RESEARCH PROJECT

- Continuous assessment contributes to 10% (Proposal defence seminar)
- Final examination contributes 100% (research report and viva voce)
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7003 – FUNDAMENTALS OF DENTAL PUBLIC HEALTH AND PRIMARY HEALTH CARE

- Continuous assessment contributes 50% of the overall grade and includes seminar presentation, written assignment & class test.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7004 – SOCIAL AND BEHAVIOURAL SCIENCE IN DENTISTRY

- Continuous assessment contributes 50% of the overall grade and includes case study presentation, case study report & oral presentations.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7005 – HEALTH PROMOTION

- Continuous assessment contributes 50% of the overall grade and includes oral presentation, peer assessment, community assessment, written assignment.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7006 – EPIDEMIOLOGY OF ORAL CONDITIONS

- Continuous assessment contributes 50% of the overall grade and includes class test & oral presentation.
- The final examination contributes 50% of the overall grade.

- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7007 – PREVENTIVE DENTISTRY

- Continuous assessment contributes 50% of the overall grade and includes modified OSCE, written assignment, module test.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7010 – COMPARATIVE STUDY OF THE ORAL HEALTH CARE DELIVERY SYSTEMS

- Continuous assessment contributes 100% of the overall grade and includes seminar presentation, report, field supervisor's assessment & peer review.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7011 – LAW AND ETHICS IN DENTISTRY

- Continuous assessment contributes 50% of the overall grade and includes oral presentation & class test.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7012 – BIOSTATISTICS

- Continuous assessment contributes 70% of the overall grade and includes practical test and class test.
- The final examination contributes 30% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

DQD 7013 – RESEARCH METHODOLOGY IN HEALTH SYSTEMS

- Continuous assessment contributes 50% of the overall grade and includes practical reports, class test & oral presentations.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

Elective Courses from the Department of Social and Preventive Medicine,
Faculty of Medicine, Universiti Malaya

MQB 7041 – OCCUPATIONAL HEALTH

- Continuous assessment contributes 60% of the overall grade and includes case study and individual assignment.
- The final examination contributes 40% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

MQB 7047 – PRINCIPLES OF MANAGEMENT IN HEALTH

- Continuous assessment contributes 50% of the overall grade and includes group work, assignment & case report.
- The final examination contributes 50% of the overall grade.
- The final result will be either a PASS or FAIL, with corresponding grades assigned.

Note: For further information of Elective Courses from the Social Preventive Medicine Department, please refer to the Master of Public Health (MPH) student handbook.

c) Grading Scheme

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	
70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 -59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

d) Minimum Requirements of Study

To fulfil the minimum requirements of study at the University, the candidate:

- i) must obtain a GPA and CGPA of not less than 3.00 in every semester until the completion of his/her studies.
- ii) the Faculty shall determine before the first semester in any academic session and inform the candidate early, the courses for which it is compulsory to pass with specific minimum grades.
- iii) for any courses for which it is compulsory to pass with a specific minimum grade, a candidate shall repeat any course with a grade less than the minimum grade so as to obtain the required minimum grade within the maximum period of his/her candidature. A candidate who obtains a grade less than the minimum pass grade after three attempts for a course for which it is required to obtain shall be terminated from his/her programme of study.

e) Academic Probationary Period

Any candidate with a GPA below 3.00 in any semester shall be given Probation and placed under an Academic Probationary Period in the following normal semester. The Period shall continue until the candidate has achieved a GPA of 3.00.

When a candidate has been placed under an Academic Probationary Period in any semester, the Dean of the Faculty shall issue a warning to the candidate and inform him/her of the status of his/her progress. The warning must contain a clear statement of what is deemed as satisfactory progress and what the candidate is required to do to achieve it.

f) Failed and Terminated

A candidate may be terminated from his/her programme of study if:

- (i) He/she does not achieve, after three attempts, at least the minimum pass grade for the course for which the Faculty has made compulsory to obtain in order to pass;
- (ii) He/she has obtained a GPA of less than 3.00 but more than 2.00 for three consecutive normal semesters.

- 
- (iii) He/she has obtained a GPA of less than 2.00 in two consecutive normal semesters.

Any candidate readmitted after having failed and terminated and obtains an academic performance which is less than satisfactory and is deemed as failed and terminated under these regulations, may be terminated from his/her programme of study.

10. AWARD OF THE DEGREE

A candidate may be awarded the degree of Master of Community Oral Health if he has:

- i) achieved a final CGPA of 3.0 and above; and
- ii) complete 42 credits as prescribed for the programme; and
- iii) fulfil the language requirements prescribed for the programme; and
- iv) fulfil other requirements of the Faculty and/or University.

11. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Master of Community Oral Health (with Distinction) if he has:

- (a) achieved a final CGPA of 3.7 and above; and
- (b) never failed any course;
- (c) never repeated any course for the purpose of improving his/her grade for the course throughout the duration of the programme; and
- (d) completed his/her study within the designated period.

DOCTOR IN PAEDIATRIC DENTISTRY

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME OF STUDY

The Doctor in Paediatric Dentistry (DrPaedDent) is a 3-years, full-time programme with 30% research component, designed for dental graduates with a master degree who wish to pursue specialist training in Paediatric Dentistry. The course aims to produce specialists who are clinically competent in the field of Paediatric Dentistry and are able to function as members of the health care delivery system with the highest standards of professional ethics while adapting to the changing needs of the community.

2. ADMISSION REQUIREMENTS

- (1) Bachelor of Dental Surgery or an equivalent degree in Dentistry AND A Master degree in Oral Science with elective on Paediatric Dentistry AND have at least two (2) years Bachelor degree post registration clinical experience in dentistry, which excludes the training period during the master programme.
- (2) Registered with the Malaysian Dental Council (MDC) and holds current Annual Practicing Certificate (APC) or registered with the dental regulatory body in another country and eligible to be granted a Temporary Practicing Certificate (TPC) by MDC; AND
- (3) Satisfy health and other requirements as required by University of Malaya; AND
- (4) Fulfill the requirements for admission as prescribed by the Faculty; AND
- (5) Fulfils English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the following):
 - (a) Obtain a score of 550 for a total based on the paper, a score of 213 for a total based on the computer or a score of 80 for a total based on the internet for the Test of English as a Foreign Language (TOEFL); OR

- (b) Obtained a minimum score of band 6 or band according to programme standard in the International English Language System (IELTS); OR
- (c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR
- (d) English Language subject at A-level with Grade C and above; OR
- (e) Cambridge English: First (FCE) grade C and above; OR
- (f) Cambridge English: Advance (CAE) Grade C and above; OR
- (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
- (h) Malaysian University English Test (MUET) with minimal band 5

3. DURATION OF STUDY

This programme shall extend over a minimum period of six (6) semesters and a maximum period of eight (8) semesters.

4. STRUCTURE OF PROGRAMME OF STUDY

(1) Programme Learning Outcomes:

At the end of the Doctor in Paediatric Dentistry programme, the graduates must be able to:

- (i) Apply scientific evidence-based knowledge for problem-solving and patient care in Paediatric Dentistry.
- (ii) Identify and diagnose clinical problems associated with development of permanent and/or primary teeth and related structures, provide appropriate holistic specialist health care, plan follow up care and solve related problems.
- (iii) Identify and work alongside relevant colleagues/agencies/organisations/communities in promoting oral health care of children.
- (iv) Apply legal, ethical and professional code of practice in the oral care of children and demonstrate good values and attitudes in the management of clinical problems.

- (v) Communicate effectively with colleagues, health care professionals, relevant agencies, patients and the community at large and exhibit good leadership and teamwork skills in promoting the oral health of children.
 - (vi) Critically appraise and utilize advances in scientific knowledge and technology for the benefit of oral health care of children.
 - (vii) Integrate information for lifelong learning and continuing professional development to further improve their knowledge and skills in Paediatric Dentistry.
 - (viii) Apply the principles of social entrepreneurship and good management skills in promoting the oral health of children
- (2) This programme shall consist of the following:
- (a) Faculty Core course
 - (i) Research Methodology course (DVX 8001)

This course comprises of mid and advanced level Research Methodology and Biostatistics components. Students are introduced to relevant research methodology and principles in conducting clinical, applied and basic research. Concepts in biostatistics are covered and supplemented with hands-on session using statistical software which enables students to perform relevant analysis, correct interpretation and presentation of data. The course also provides opportunities for students to practice intellectual thinking and scientific writing.
 - (b) Programme Core Courses
 - (i) Dissertation (Paediatric Dentistry) (DYC 8002)

Comprising research in the field of Paediatric Dentistry.
 - (ii) Paediatric Dentistry I (DYC 8003)

Comprising teaching, training and clinical coursework in the speciality of Paediatric Dentistry.

(iii) Paediatric Dentistry II (DYC 8004)

Comprising clinical attachment in the specialty option at local/international tertiary centres under supervision of paediatric dentistry consultants approved by the University and/or Ministry of Health.

- (c) The scope of the programme is given in the Course Proforma and Course Information as given by the department carrying out the specialty programme.

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. ACADEMIC SUPERVISION

- (i) The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of co-supervisor(s) may be required for the research component.
- (ii) The consultant appointed to the candidate at centers of attachment shall submit a report on the candidature clinical progress to the Head of Department at the end of each posting and/or six months' interval for a posting longer than six months.

7. FIELD OF RESEARCH

- (i) The determination of the field of research shall be done prior to the candidate's embarkation on research work.
- (ii) The candidate is required to satisfactorily complete the research proposal presentation and candidature defense during the course of the research project.

8. SUBMISSIONS

- (i) A candidate shall submit his/her research report at least ONE month before the commencement date of Dissertation (Paediatric Dentistry) examination or by the date prescribed by the department.
- (ii) A candidate shall submit his/her case reports at least ONE month before the commencement date of Part I and Final Professional examination or by the date prescribed by the department.
- (iii) A candidate shall submit his/her logbook by the date prescribed by the department prior to the examination.

9. EXAMINATION

- 1) The examination leading to the degree of Doctor in Paediatric Dentistry (DrPaedDent) by clinical coursework shall be the:
 - a) Part I Professional examination
 - i. The Part I Professional examination shall be held at the end of Year 2 of the programme of study. No candidate shall be permitted to sit for the Part I Professional examination unless he/she has:
 - obtained at least 65% marks of the continuous assessment component of the Part I Professional examination.
 - submitted his/her case reports for examination not later than ONE month before the Part I Professional examination.
 - b) Dissertation (Paediatric Dentistry)
 - i. The examination for Dissertation (Paediatric Dentistry) shall be held at the end of Semester 1, Year 3 of the programme of study. No candidate shall be permitted to sit for the Dissertation (Paediatric Dentistry) examination unless he/she has
 - satisfactorily completed the research proposal presentation and candidature defense presentation.
 - submitted his/her Dissertation not later than **ONE** month before the Dissertation (Paediatric Dentistry) examination.

c) Final Professional Examination

- i. The Final Professional examination shall be held at the end of Year 3 of the programme of study. No candidate shall be permitted to proceed to the Final Professional examination unless he has:
- passed the Part I Professional examination.; and
 - submitted his/her case reports and logbook for examination by the date prescribed by the department prior to the Final Professional examination.

2) Examination Components and Allocation of Marks

a) Part I Professional Examination

The components of the Part I Professional examination and the marks to be allocated to each section shall be as follows:

Component	Subcomponent	Allocation of Marks (Maximum)
Section A	Professional Examination	60%
	a. Written paper	50%
	b. Case presentation	25%
	c. Unseen Case examination	25%
Section B	Continuous assessment	40%
Grand Total		100%

Candidate has to satisfy the requirements for other courses registered for this part of the programme.

b) Dissertation (Paediatric Dentistry) examination

The components of the Dissertation (Paediatric Dentistry) examination shall be as follows:

Component	Assessment
1. Dissertation evaluation	Pass/Fail (refer below for grading)
2. <i>Viva Voce</i>	

Candidates are required to attend the viva voce for the Dissertation. Marks and grades will not be given in the dissertation examination.

Candidate has to satisfy the requirements for this part of the programme.

c) Final Professional Examination

The components of the Final Professional examination and the marks to be allocated to each section shall be as follows:

Component		Allocation of Marks (Maximum)
Section A	General <i>Viva Voce</i>	50%
Section B	Clinical Case presentation	25%
	Log Book (Clinical Attachment)	25%
Grand Total		100

3) Examination Assessment

Marking Scheme

- a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	

70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 – 59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

b) For the Part I Professional examination:

- (i) candidates who obtained 60-64 marks must attend the viva voce conducted by the related examiner(s); and
- (ii) If the candidate shows satisfactory performance, the marks will be raised to 65 upon recommendation by the examiners.

c) For the Dissertation (Paediatric Dentistry) Examination:

The committee of examiners shall consider the examiner reports for dissertation, candidate dissertation and *viva voce* examination according to **University of Malaya Rules and Regulations (Doctorate Degree) 2019** to recommend whether the candidate

- i) will be awarded a distinction
- ii) has achieved sufficient academic merit to be awarded a Degree without the need to make amendments/corrections.
- iii) has achieved sufficient academic merit to be awarded a degree subject to the candidate making minor corrections in a period not exceeding three (3) months and confirmed by the supervisor.
- iv) has achieved sufficient academic merit to be awarded a degree subject to the candidate making major corrections in a period not

exceeding six (6) months and confirmed by the supervisor and internal examiner.

- v) is required to do further research and submit a dissertation for re-examination within six (6) to twelve (12) months.
- vi) does not achieve academic merit and recommends to the committee of examiners that the candidate has failed in dissertation examination and is not allowed to submit a dissertation for re-examination.

4) Requirements for Passing an Examination

A candidate shall be deemed to have passed the examinations prescribed below if he/she has obtained:

a) Part I Professional Examination

65% or more of the marks for Section A and Section B and 65% or more of the aggregate combined marks for Section A and Section B of the Part I Professional examination.

b) Dissertation (Paediatric Dentistry) Examination

- i) is awarded a distinction
- ii) has achieved sufficient academic merit to be awarded a Degree without the need to make amendments/corrections.
- iii) has achieved sufficient academic merit to be awarded a degree subject to the candidate making minor corrections in a period not exceeding three (3) months and confirmed by the supervisor.
- iv) has achieved sufficient academic merit to be awarded a degree subject to the candidate making major corrections in a period not exceeding six (6) months and confirmed by the supervisor and internal examiner.

(a) Final Professional Examination

65% or more of the marks for Section A and Section B and 65% or more of the aggregate combined marks for Section A and Section B of the Final Professional examination.

5) Repeating an Examination

a) Part I Professional Re-Examination

- (i) A candidate who has failed the Part I professional examination shall be required to repeat the Part I professional examination after repeating such parts of the course over a period of time as determined by the Committee of Examiners and approved by the Faculty.
- (ii) In a Part I Professional Re-examination, the candidate is required to re-sit only the first professional examination and shall be deemed to have passed the continuous assessment with a highest grade B after attaining at least 65% marks in Section B.
- (iii) A candidate who fails the Part I Professional examination twice consecutively shall be terminated from the Doctor in Paediatric Dentistry (DrPaedDent) degree programme and be refused re-admission to the programme.

b) Dissertation (Paediatric Dentistry) Re-Examination

- (i) A candidate's dissertation that is deemed unsatisfactorily by the Committee of Examiners may be referred for further work over a period of time to be determined by the Committee of Examiners except that such periods of time as determined, shall not exceed one year on any one occasion. At the end of the prescribed period the candidate shall be required to **re-submit** the dissertation for re-examination.
- (ii) A candidate who failed to submit his/her dissertation by the end of a prescribed period for corrections or re-examination or whose dissertation after re-submission, fails to satisfy the Committee of Examiners, shall be deemed to have failed the re-examination in the dissertation.

c) Final Professional Re-Examination

- (i) A candidate who has failed the final professional examination shall be required to re-sit the final professional examination.
- (ii) A candidate who has failed the final professional re-examination twice consecutively shall be terminated from the Doctor in Paediatric Dentistry (DrPaedDent) degree programme and be refused readmission to the programme except in special circumstances on the recommendation of the Faculty of Dentistry and with the approval of the Senate.
- (iii) A candidate who has passed the re-examination for the examinations mentioned above shall be deemed to have passed the prescribed examinations.

10. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction in the Part I Professional examination or the Final Professional examination if he/she has:

- a) obtained 80% or more of the aggregate combined marks of the components and at least 75% or more of the marks of each component in the prescribed examinations;
- b) not failed any component of the prescribed examinations; and;
- c) not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

11. AWARD OF THE DEGREE

A candidate may be awarded the degree of Doctor in Paediatric Dentistry (DrPaedDent) if he/she has:

- a) passed the Part I Professional examination, Dissertation (Paediatric Dentistry) and Final Professional examination for the degree of Doctor in Paediatric Dentistry (DrPaedDent) as prescribed above; and

- b) satisfactorily fulfilled the requirements of the Research Methodology course.

12. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Doctor in Paediatric Dentistry (DrPaedDent) (with Distinction) if he/she has:

- a) passed with Distinction in the Part I Professional examination, Dissertation (Paediatric Dentistry) and Final Professional examination for the degree of Doctor in Paediatric Dentistry (DrPaedDent) as prescribed above; and
- b) not repeated the Part I Professional examination, Dissertation (Paediatric Dentistry) examination or the Final Professional examination or any part of the programme of study leading to Part I Professional examination, the Dissertation (Paediatric Dentistry) examination or the Final Professional examination except on medical or compassionate grounds acceptable to the Faculty.
- c) Not failed any component of the prescribed examinations;

completed the programme of study in a period not exceeding six (6) ordinary semesters from the initial semester of candidate registration.

DOCTOR IN SPECIAL CARE DENTISTRY

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME OF STUDY

The Doctor in Special Care Dentistry (DrSCDent) is a three-year full-time programme for a specialist training in Special Care Dentistry (SCD). The programme aims to produce specialists in the discipline of SCD who are knowledgeable, clinically, and technically competent to practice at an advanced level, socially responsible, are able to function effectively as members of the healthcare delivery system and who adhere to the highest standards of professional ethics and conduct. The programme is designed to facilitate the advanced development of clinical, academic and research skills necessary for a student to further a career in academia, research, or specialty practice.

2. ADMISSION REQUIREMENTS

- (a) Minimum requirement:
 - (i) Obtained recognized bachelor's degree or an equivalent degree in Dentistry with Master of Oral Sciences with elective on Special Care Dentistry from Universiti Malaya or equivalent
 - (ii) and have at least two (2) years post registration clinical experience in dentistry
- (b) Registered with the Malaysian Dental Council (MDC) and holds a current Annual Practising Certificate (APC) or registered with a dental regulatory body in another country and eligible to be granted a Temporary Practising Certificate (TPC) by the MDC.
- (c) Other requirements:
 - (i) Pass the interview (exemption may be given for candidates who have obtained the degree from the Master of Oral Science, UM)
 - (ii) Fulfil the requirements for admission as prescribed by the Faculty.

- (d) Fulfils English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the following):
 - a. Obtained a minimum score of 600 (Paper Based Test); or score of 250 (computer based-test) or score of 100 (internet test) in the Test of English as a Foreign Language (TOEFL); OR
 - b. Obtained a minimum score of band 6 or band according to program standard in the International English Language System (IELTS); OR
 - c. Pearson Test of Academic English (PTE Academic) with minimum score of 42;
 - d. English Language subject at A-level with Grade C and above;
 - e. Cambridge English: First (FCE) grade C and above;
 - f. Cambridge English: Advance (CAE) Grade C and above;
 - g. Cambridge English: Proficiency (CPE) Grade C and above; or
 - h. Malaysian University English Test (MUET) with minimal band 5
- (e) Students will be required to submit the proof of blood test for blood borne virus diseases including Hepatitis B, HIV (local and international students), Hepatitis C, VDRL/TPHA, BFMP (international students only).

3. DURATION OF STUDY

This programme shall extend over a minimum period of six (6) semesters / 3 years and a maximum period of eight (8) semesters/ 4 years.

4. STRUCTURE OF PROGRAMME OF STUDY

(a) Programme Learning Outcome

At the end of the Doctor in Special Care Dentistry programme, the graduates must be able to:

- (i) Synthesise knowledge of evidenced-based patient care and research methods, ensuring mastery of clinical and research skills in Special Care

Dentistry.

- (ii) Adapt clinical and research skills for current evidence-based treatment approaches in the management of patients with special needs.
 - (iii) Communicate with peers, other health professionals and local communities for provision of oral health services in Special Care Dentistry.
 - (iv) Adhere to legal, ethical and professional code of practice in research and patient care in the field of Special Care Dentistry.
 - (v) Exhibit teamwork, leadership and communication skills.
 - (vi) Critically appraise and utilize advances in scientific knowledge and technology in decision-making pertaining to evidence-based patient care, design and execute research and disseminate its output in the specialty Special Care Dentistry.
 - (vii) Practice lifelong learning and evaluation of new information for evidence-based clinical practice in solving problems at the patient and community level.
- (b) This programme shall consist of TWO main components:
- (i) Faculty Core Course:
 - Research Methodology (DVX 8001)

This course comprises of mid and advance level of Research Methodology and Biostatistics components. Students are introduced to research methodology and principles in conducting clinical, applied, and basic research. Concepts in biostatistics will be covered and supplemented with hands-on session using statistical software which enables students to perform relevant analysis, correct interpretation, and presentation of data. The course also provides opportunities for students to practice intellectual thinking and scientific writing.
 - (ii) The Programme Core Course consists of the following:
 - Dissertation (Special Care Dentistry) (DYD 8002)

This course encompasses all aspects of research from development of a research proposal to submission of a research write-up in the form of dissertation. An experienced supervisor in research will supervise the trainee in the specialty of Special Care Dentistry. The candidate will be able to develop a research proposal and present it for evaluation. The candidate will also be able to write the ethics and grant applications (where necessary) and submit it to the relevant agencies for approval in Year 1. The candidate will be able to write-up a literature review in their relevant topics by the end of 1st Year and conduct research work independently in the Year 2 in accordance with ethics and morals in research. By the end of the second year, candidates will be able to submit their thesis for critical evaluation by internal and external examiners and to defend their research output. In due process candidates may be able to send their research for publication in local/international journal.

- Special Care Dentistry I (DYD 8003)

This is a progressive course starting from year one to year two. There will be a series of lectures and seminars that will cover topics in disability, including legal, ethical, cultural and social aspects underpinning SCD, dental management of human diseases of medically compromised patients, oral pathology, oral medicine, cancer and patients with sensory, behavioural and cognitive impairments. The candidate will be able to manage patients who are undergoing dental treatment under general anaesthesia, inhalation sedation using nitrous oxide and behaviour therapy while providing dental treatments. The candidate would be able to apply knowledge of medical problems while providing oral health care in the management of patients with complex medical conditions such as those undergoing chemotherapy, radiotherapy, immunotherapy, and organ transplant. The candidate would be able to monitor appropriate, individual health care plans to prevent and minimise the effects of oral disease for special needs patients in a community, clinic, hospital, and domiciliary settings. The candidate will also be posted to the hospital departments, i.e. anaesthesiology, haematology, accident & emergency and oncology units. During 1st year, the candidate will be assessed on the assignments, clinical work, and written test by the end of the 1st year. The candidate will attend the Professional Examination Part 1 by the end of this course during the 2nd year.

- Special Care Dentistry II (DYD 8004)

The course will be delivered in the 3rd year through specialty attachment for work experiential learning. The candidate will be able to practice and update their professional skills in managing SCD patients. The course will encourage candidates to become a life-long learner, capable of reflecting and continuing self-directed learning in the practice of SCD. The candidate will attend the Final Professional Examination by the end of this course.

- (c) The scope of the programme is given in the Course Proforma and Course Information as given by the department carrying out the specialty programme.

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. ACADEMIC SUPERVISION

- a) The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of co-supervisor(s) may be required for the research component.
- b) Student supervision in clinical and research are supported by experts from Special Care Dentistry and other dental disciplines such as Conservative, Oral Medicine Oral Pathology, Oral and Maxillofacial Surgery, etc. as well as other medical specialties.
- c) The supervisor and co-supervisor for the clinical training shall submit a report on the candidature progress to the Head of Department at the end of each semester.
- d) The consultant appointed to the candidate shall also submit a report on the candidature clinical progress to the Head of Department at the end of each posting.

7. FIELD OF RESEARCH

The determination of the field of research shall be done prior to the candidate's embarkation on research work.

8. SUBMISSIONS

- a) A candidate shall submit his/her research report at least ONE month before the commencement date of Part II examination.
- b) A candidate shall submit his/her logbook by the date prescribed by the department prior to the examination.

9. EXAMINATION

- 1) The examination leading to the degree of Doctor in Special Care Dentistry by clinical coursework shall be the:
 - a) Professional Examination Part I
 - b) Final Professional Examination
 - c) Research dissertation component
- 2) No candidate shall be permitted to sit for the Final Professional examination unless he/she has passed the Part I examination.
- 3) The Part I examination shall be held at the end of the semester 4. The Final Part shall be held at the end of the semester 6.
- 4) Examination components and allocation of marks:
 - (a) Professional Examination Part I
 - (i) The components of the Part I examination and the marks to be allocated to each section shall be as follows:

Section	Component	Allocation of marks (Weightage, %)
A: Theory & clinical components (60%)	i. Written paper	50
	ii. Viva voce of clinical cases	50
Total		100
B: Continuous assessment (40%)	i. Year 1 assessment	40
	ii. Clinical assessment	20
	iii. Clinical audit presentation	20
	iv. Assignments	10
	v. Logbook	10
Total		100

Completed audit report, case presentations and field visit

(b) Final Professional Examination

(i) The marks to be allocated to each component shall be as follows:

Section A: *Clinical Management (60%)

Components	Weightage
i. Viva-Voce	80%
ii. Clinical case reports	20%
TOTAL	100%

**Candidates must attain at least 65% for component in section A.*

Section B: *Continuous Assessment (40%)

Components	Weightage
i. Logbook	100%
TOTAL	100%

**Candidates must attain at least 65% in section B.*

Re-examination:

- A candidate who has not achieved the above requirement shall be required to repeat the whole course DYD 8004 and re-sit the Final Professional Examination and obtain at least 65% marks, provided has not exceeded the maximum candidature period.
- Continuous assessments marks shall be determined based on the clinical schedule and other assessment activities assigned to the repeat candidate which will be set by the Department.
- A candidate who failed the Final Professional twice consecutively or has exceeded the maximum candidature period will be deemed as failed out.

Appeal:

Refer to the University of Malaya (Degree of Doctorate) Rules and Regulations 2019.

(c) Research dissertation component

The method of assessment for research dissertation component of a Doctor in Special Care Dentistry by Coursework is as follows:

- a) through examination of the dissertation and a *viva voce*
- b) The committee of examiners shall consider the examiner reports for dissertation, candidate dissertation and *viva voce* examination according to **University of Malaya Rules and Regulations (Doctorate Degree) 2019** to recommend whether the candidate:
 - i) will be awarded a distinction
 - ii) has achieved sufficient academic merit to be awarded a pass to the course without the need to make amendments/corrections.
 - iii) has achieved sufficient academic merit to be awarded a pass to the course subject to the candidate making minor corrections in a period not exceeding three (3) months and confirmed by the supervisor.
 - iv) has achieved sufficient academic merit to be awarded a pass to the course subject to the candidate making major corrections in a period not exceeding six (6) months and confirmed by the supervisor and internal examiner.
 - v) is required to do further research and submit a dissertation for re-examination within six (6) to twelve (12) months.
 - vi) does not achieve academic merit and recommends to the committee of examiners that the candidate has failed in dissertation examination and is not allowed to submit a dissertation for re-examination.
- c) Mark and grade will not be given in the examination of a dissertation.

- d) The candidate shall be required to attend a *viva voce* with respect to his dissertation. The Committee of Examiners has the authority to determine the method of conducting a *viva voce* of the dissertation of a candidate. The Committee of Examiners may, if necessary, invite a teacher at the University who has the experience and expertise related to the field of research of the candidate to attend the meeting of the Committee of Examiners and the *viva voce* examination of the candidate concerned.

5) Examination Assessment

Marking Scheme

- (a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	
70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 -59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

- (b) Grading system for research component:

1. Awarded a Distinction
2. Awarded a pass with no amendment/correction required
3. Awarded a pass with minor correction, and for resubmission with verification by supervisor/s

4. Awarded a pass with major correction, and for resubmission with verification from supervisor/s and internal examiner
5. Resubmission of dissertation with further work as recommended by examiners for re-examination
6. Failed the dissertation examination and the work is not acceptable for resubmission for re-examination.

6) Requirements for Passing an Examination

A candidate shall be deemed to have passed the examinations prescribed below if he has obtained:

(b) Part I Examination

- 65% or more of the marks for each of section A and section B; and,
- 65% or more of the aggregate combined marks for section A and section B.
- Obtain at least 65% passing marks on clinical audit

(c) Final Part Examination

- 65% or more of the marks for each of section A and section B; and
- 65% or more of the aggregate combined marks for section A and section B.

7) Repeating an Examination

(a) Part I Re-Examination

- (i) A candidate who has not achieved the above requirement shall be required to repeat the Part I Examination in the next academic year.
- (ii) Continuous assessment marks shall be determined based on the clinical schedule and other assessment activities assigned to the repeat candidate which will be set by the department.
- (iii) Candidates must attain at least 65% in Section A and B respectively, and 65% of the aggregate combined marks for section A and B to obtain a pass.

Appeal

Refer to the University of Malaya (Degree of Doctorate) Rules and Regulations 2019.

(b) Final Part Re-Examination

- (i) A candidate who has not achieved the above requirement shall be required to repeat the whole course DYD 8004 and re-sit the Final Professional Examination and obtain at least 65% marks, provided has not exceeded the maximum candidature period.
- (ii) Continuous assessments marks shall be determined based on the clinical schedule and other assessment activities assigned to the repeat candidate which will be set by the Department.
- (iii) A candidate who failed the Final Professional twice consecutively or has exceeded the maximum candidature period will be deemed as failed out.

(c) Dissertation Re-Examination

- (i) A candidate's research dissertation that is deemed unsatisfactorily by the Committee of Examiners may be referred for further work over a period of time to be determined by the Committee of Examiners.
- (ii) A candidate who failed to submit his/her research dissertation by the end of a prescribed period for re-examination or whose research dissertation after re-submission, fails to satisfy the Committee of Examiners, shall be deemed to have failed the re-examination in the research dissertation, unless in certain circumstances an extension of not more than three (3) months to the specified period has been approved by the Dean of the Faculty. Any appeal after this extended period is subject to the approval of the Senate on the recommendation of the Committee of Examiners.

10. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction in the Part I examination and Final Part of examination if he/she has:

- (a) Obtained 80% or more of the aggregate combined marks of the components and at least 75% or more of the marks of each component in the prescribed examinations;
- (b) Not failed any component of the prescribed examinations; and;
- (c) Not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

11. AWARD OF THE DEGREE

A candidate may be awarded the Doctor in Special Care Dentistry if he/she has:

- (d) passed the Part I and Final Examinations in Doctor in Special Care Dentistry as prescribed above; and
- (e) satisfactorily fulfilled the requirements of courses; Research Methodology and Dissertation (Special Care Dentistry)

12. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the Doctor in Special Care Dentistry (with Distinction) if he/she has:

- (f) Passed with Distinction in the Part I and Final examinations for the Special Care Dentistry I and II courses as prescribed above; and
- (g) Not repeated the Part I examination, Final examination or any part of the programme of study leading to Part I examination and the Final Professional examination except on medical or compassionate grounds acceptable to the Faculty.

DOCTOR IN ORAL MAXILLOFACIAL PATHOLOGY AND ORAL MEDICINE

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME OF STUDY

The Doctor in Oral Maxillofacial Pathology and Oral Medicine (DrOMPathMed) is a 3-year, full-time programme with 30% research component, designed for dental graduates with a master degree who wish to pursue specialist training in Oral Maxillofacial Pathology and Oral Medicine. The programme aims to produce Oral Maxillofacial Pathology and Oral Medicine specialists who adhere to the highest standards of professional ethics, are knowledgeable, competent in clinico-pathological diagnosis, have social responsibility, and are adaptable to the changing needs of the community.

2. ADMISSION REQUIREMENTS

- (1) Bachelor of Dental Surgery or an equivalent degree in Dentistry AND A Master degree in Oral Science or equivalent Master degree from local and foreign universities AND have at least two (2) years post registration clinical experience in dentistry after Bachelor degree, which excludes the training period during the master programme.
- (2) Registered with the Malaysian Dental Council (MDC) and holds current Annual Practicing Certificate (APC) or registered with the dental regulatory body in another country and eligible to be granted a Temporary Practicing Certificate (TPC) by MDC; AND
- (3) Satisfy health and other requirements as required by Universiti Malaya; AND
- (4) Pass the interview (exemption may be given for candidates who have obtained the degree of Master of Oral Science, Universiti Malaya); AND
- (5) Fulfill the requirements for admission as prescribed by the Faculty; AND
- (6) Fulfils English Language Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the following):

- (a) Obtain a score of 550 for a total based on the paper, a score of 213 for a total based on the computer or a score of 80 for a total based on the internet for the Test of English as a Foreign Language (TOEFL); OR
- (b) Obtain a minimum score of band 6 or band according to programme standard in the International English Language System (IELTS); OR
- (c) Pearson Test of Academic English (PTE Academic) with a minimum score of 42; OR
- (d) English Language subject at A-level with Grade C and above; OR
- (e) Cambridge English: First (FCE) grade C and above; OR
- (f) Cambridge English: Advance (CAE) Grade C and above; OR
- (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
- (h) Malaysian University English Test (MUET) with minimal band 5

3. DURATION OF STUDY

This programme shall extend over a minimum period of six (6) semesters and a maximum period of eight (8) semesters.

4. STRUCTURE OF PROGRAMME OF STUDY

(1) Programme Learning Outcomes:

At the end of the Doctor in Oral Maxillofacial Pathology and Oral Medicine programme, the graduates must be able to:

- (i) Synthesize knowledge towards diagnosis, evidenced-based patient care and original research in the specialty of Oral Maxillofacial Pathology and Oral Medicine.
- (ii) Adapt practical and clinical skills to carry out investigations required for diagnosis and management of patients with Oral and Maxillofacial disorders.
- (iii) Provide comprehensive and holistic specialist healthcare relating to the specialty of Oral Maxillofacial Pathology and Oral Medicine.

- (iv) Conduct research independently adhering to legal, ethical and professional code of practice in the specialty of Oral Maxillofacial Pathology and Oral Medicine.
 - (v) Display leadership skills through effective communication with colleagues, other healthcare professionals, relevant agencies and patients.
 - (vi) Apply advances in scientific knowledge and technology in decision-making pertaining to evidence-based patient care, and research in the specialty of Oral Maxillofacial Pathology and Oral Medicine.
 - (vii) Integrate information for lifelong learning in solving problems at the patient and community level.
 - (viii) Practice independently as part of an effective management of clinical specialist practice in the field of Oral Maxillofacial Pathology and Oral Medicine.
- (2) This programme shall consist of the following:
- (a) Faculty Core course
 - (i) Research Methodology course (DVX 8001)

This course comprises mid and advanced levels of Research Methodology and Biostatistics components. Students are introduced to relevant research methodology and principles in conducting clinical, applied and basic research. Concepts in biostatistics are covered and supplemented with hands-on sessions using statistical software which enables students to perform relevant analysis, correct interpretation and presentation of data. The course also provides opportunities for students to practice intellectual thinking and scientific writing.
 - (b) Programme Core Courses
 - (i) Dissertation (Oral Maxillofacial Pathology & Oral Medicine) (DYA 8002)

Comprising research in the field of Oral Maxillofacial Pathology & Oral Medicine.
 - (ii) Oral Maxillofacial Pathology & Oral Medicine I (DYA 8003)

Comprising teaching, training and clinical coursework in the specialty of Oral Maxillofacial Pathology & Oral Medicine.

(iii) Oral Maxillofacial Pathology & Oral Medicine II (DYA 8004)

Comprising attachments in clinical and laboratory units in the specialty at local/international tertiary centres under supervision of Oral Maxillofacial Pathology & Oral Medicine consultants approved by the University and/or Ministry of Health.

- (c) The scope of the programme is given in the Course Proforma and Course Information as given by the department carrying out the specialty programme.

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the classes begin, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. ACADEMIC SUPERVISION

- (i) The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of co-supervisor(s) may be required for the research component.
- (ii) The consultant appointed to the candidate at centers of attachment shall submit a report on the candidate's progress to the Head of Department at the end of each posting.

7. FIELD OF RESEARCH

- (i) The determination of the field of research shall be done prior to the candidate's embarkation on research work.
- (ii) The candidate is required to satisfactorily complete the research proposal presentation and candidature defense during the course of the research project.

8. SUBMISSIONS

- (i) A candidate shall submit his/her research report at least ONE month before the commencement date of Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination or by the date prescribed by the department.
- (ii) A candidate shall submit his/her case reports at least ONE month before the commencement date of the First and Second Professional examinations or by the date prescribed by the department.
- (iii) A candidate shall submit his/her logbook by the date prescribed by the department prior to the examination.

9. EXAMINATION

- 1) The examination leading to the degree of Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) by clinical coursework shall be the:
 - a) Professional examination I
 - i. The Professional examination I shall be held at the end of Year 2 of the programme of study. No candidate shall be permitted to sit for the Professional examination I unless he/she has:
 - satisfied the clinical requirement set by the Department.
 - obtained at least 65% marks for the continuous assessment component of the Professional examination I.
 - b) Dissertation (Oral Maxillofacial Pathology & Oral Medicine)
 - i. The examination for Dissertation (Oral Maxillofacial Pathology & Oral Medicine) shall be held at the end of Semester 1, Year 3 of the programme of study. No candidate shall be permitted to sit for the Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination unless he/she has
 - satisfactorily completed the research proposal presentation and candidature defense presentation.

- submitted his/her Dissertation not later than **ONE** month before the Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination.

c) Professional Examination II

ii. The Professional examination II shall be held at the end of Year 3 of the programme of study. No candidate shall be permitted to proceed to the Professional examination II unless he/she has:

- passed the Professional examination I.; and
- submitted his/her case reports and logbook for examination by the date prescribed by the department prior to the Professional examination II.

2) Examination Components and Allocation of Marks

a) Professional Examination I

The components of the Professional examination I and the marks to be allocated to each section shall be as follows:

Component	Subcomponent	Allocation of Marks (Maximum)
Section A	Professional Examination	60%
	a) Theory	40%
	b) Clinical (including voice)	30%
	c) Practical (may include viva-voce)	30%
Section B	Continuous assessment	40%
Grand Total		100%

Candidate has to satisfy the requirements for other courses registered for this part of the programme.

b) Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination

The components of the Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination shall be as follows:

Component	Assessment
Dissertation evaluation	Pass/Fail (refer below for grading)
<i>Viva Voce</i>	

Candidates are required to attend the viva voce for the Dissertation.

Marks and grades will not be given in the dissertation examination.

Candidates have to satisfy the requirements for this part of the programme.

c) Professional Examination II

The components of the Professional examination II and the marks to be allocated to each section shall be as follows:

	Component	Allocation of Marks (Maximum)
Section A	Viva voce (clinical and practical)	60%
Section B	Continuous assessment	40%
Grand Total		100

3) Examination Assessment

Marking Scheme

- a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 - 100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	
70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 - 59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

- b) For the Professional I examination:

- (i) candidates who obtained 60-64 marks must attend the viva voce conducted by the related examiner(s); and
- (ii) If the candidate shows satisfactory performance, the marks will be raised to 65 upon recommendation by the examiners.

- c) For the Dissertation (Oral Maxillofacial Pathology & Oral Medicine) Examination:

The committee of examiners shall consider the examiner reports for dissertation, candidate dissertation and *viva voce* examination according to **University of Malaya Rules and Regulations (Doctorate Degree) 2019** to recommend whether the candidate

- i) will be awarded a distinction
- ii) has achieved sufficient academic merit to be awarded a Degree without the need to make amendments/corrections.
- iii) has achieved sufficient academic merit to be awarded a degree subject to the candidate making minor corrections in a period not exceeding three (3) months and confirmed by the supervisor.
- iv) has achieved sufficient academic merit to be awarded a degree subject to the candidate making major corrections in a period not exceeding six (6) months and confirmed by the supervisor and internal examiner.
- v) is required to do further research and submit a dissertation for re-examination within six (6) to twelve (12) months.
- vi) does not achieve academic merit and recommends to the committee of examiners that the candidate has failed in dissertation examination and is not allowed to submit a dissertation for re-examination.

4) Requirements for Passing an Examination

A candidate shall be deemed to have passed the examinations prescribed below if he/she has obtained:

a) Professional Examination I

65% or more of the marks for Section A and Section B and 65% or more of the aggregate combined marks for Section A and Section B of the Professional I examination.

b) Dissertation (Oral Maxillofacial Pathology & Oral Medicine) Examination

- i) is awarded a distinction

- ii) has achieved sufficient academic merit to be awarded a Degree without the need to make amendments/corrections.
- iii) has achieved sufficient academic merit to be awarded a degree subject to the candidate making minor corrections in a period not exceeding three (3) months and confirmed by the supervisor.
- iv) has achieved sufficient academic merit to be awarded a degree subject to the candidate making major corrections in a period not exceeding six (6) months and confirmed by the supervisor and internal examiner.

(c) Professional Examination II

65% or more of the marks for Section A and Section B and 65% or more of the aggregate combined marks for Section A and Section B of the Professional examination II.

5) Repeating an Examination

a) Professional examination I Re-Examination

- (i) A candidate who has failed the professional examination I shall be required to repeat the professional examination I after repeating such parts of the course over a period of time as determined by the Committee of Examiners and approved by the Faculty.
- (ii) In a Professional examination I Re-examination, the candidate is required to re-sit only the Professional examination I and shall be deemed to have passed the continuous assessment with a highest grade B after attaining at least 65% marks in Section B.
- (iii) A candidate who fails the Professional examination I twice consecutively shall be terminated from the Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) degree programme and be refused re-admission to the programme.

b) Dissertation (Oral Maxillofacial Pathology & Oral Medicine) Re-Examination

- (i) A candidate's dissertation that is deemed unsatisfactory by the Committee of Examiners may be referred for further work over a period of time to be determined by the Committee of Examiners except that such periods of time as determined, shall not exceed one year on any one occasion. At the end of the prescribed period the candidate shall be required to **re-submit** the dissertation for re-examination.
 - (ii) A candidate who failed to submit his/her dissertation by the end of a prescribed period for corrections or re-examination or whose dissertation after re-submission, fails to satisfy the Committee of Examiners, shall be deemed to have failed the re-examination in the dissertation.
- c) Professional examination II Re-Examination
- (i) A candidate who has failed the Professional examination II shall be required to re-sit the Professional examination II.
 - (ii) A candidate who has failed the Professional examination II re-examination twice consecutively shall be terminated from the Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) degree programme and be refused readmission to the programme except in special circumstances on the recommendation of the Faculty of Dentistry and with the approval of the Senate.
 - (iii) A candidate who has passed the re-examination for the examinations mentioned above shall be deemed to have passed the prescribed examinations.

11. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction in the Professional examination I or the Professional examination II if he/she has:

- a) obtained 80% or more of the aggregate combined marks of the components and at least 75% or more of the marks of each component in the prescribed examinations;
- b) not failed any component of the prescribed examinations; and;

- 
- c) not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

12. AWARD OF THE DEGREE

A candidate may be awarded the degree of Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) if he/she has:

- a) passed the Professional examination I, Dissertation (Oral Maxillofacial Pathology & Oral Medicine) and Professional examination II for the degree of Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) as prescribed above; and
- b) satisfactorily fulfilled the requirements of the Research Methodology course.

13. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) (with Distinction) if he/she has:

- a) passed with Distinction in the Professional examination I, Dissertation (Oral Maxillofacial Pathology & Oral Medicine) and Professional examination II for the degree of Doctor in Oral Maxillofacial Pathology & Oral Medicine (DrOMPathMed) as prescribed above; and
- b) not repeated the Professional examination I, Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination or the Professional examination II or any part of the programme of study leading to Professional examination I, the Dissertation (Oral Maxillofacial Pathology & Oral Medicine) examination or the Professional examination II except on medical or compassionate grounds acceptable to the Faculty.
- c) not failed any component of the prescribed examinations;
- d) completed the programme of study in a period not exceeding six (6) ordinary semesters from the initial semester of candidate registration.

DOCTOR IN ORTHODONTICS

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME OF STUDY

The Doctor in Orthodontics (DrOrth) is a 3-year, full-time programme with 30% research component, designed for dental graduates with a master degree who wish to pursue specialist training in Orthodontics. The course aims to produce specialists in the discipline of Orthodontics who are knowledgeable, clinically and technically competent to practice Orthodontics at an advanced level, socially responsible and are able to function effectively as members of the healthcare delivery system and who adhere to the highest standards of professional ethics and conduct.

2. ADMISSION REQUIREMENTS

1. Minimum requirement:

- a) Obtained recognised bachelor's degree or an equivalent degree in Dentistry with Master of Oral Sciences with elective on Orthodontics from University of Malaya or equivalent
- b) and have at least two (2) years post registration clinical experience in dentistry

2. Registered with the Malaysian Dental Council (MDC) and holds a current Annual Practising Certificate (APC) or registered with dental regulatory body in another country and eligible to be granted a Temporary Practising Certificate (TPC) by the MDC.

3. Other requirements:

- a) Pass the interview (exemption may be given for candidates who have obtained the degree from the Master of Oral Science, UM)
- b) Fulfil the requirements for admission as prescribed by the Faculty.

4. English Language Requirement for Malaysian and non-Malaysian candidates with foreign dental degree (any ONE of the followings):
 - i. Score a minimum of 550 (written paper), score 213 (computer test) or score of 80 (internet test) in the Test of English as a Foreign Language (TOEFL);
 - ii. Obtain at least Band 6 in the International English Language System (IELTS);
 - iii. Pearson Test of Academic English (PTE Academic) with minimum score of 42;
 - iv. English Language subject at A-level with Grade C and above
 - v. Cambridge English: First (FCE) grade C and above
 - vi. Cambridge English: Advance (CAE) Grade C and above
 - vii. Cambridge English: Proficiency (CPE) Grade C and above
 - viii. Malaysian University English Test (MUET) with minimal band 4
5. *Bahasa Malaysia* Requirement for Malaysian and non-Malaysian candidates with foreign dental degree (any ONE of the followings):
 - i. pass in Bahasa Malaysia or Bahasa Melayu at the Sijil Pelajaran Malaysia level;
 - ii. level III in the Sijil Bahasa Malaysia or Bahasa Melayu Universiti or at an equivalent level; or
 - iii. pass the Bahasa Malaysia or Bahasa Melayu exemption assessment as set by the University; or
 - iv. pass the Bahasa Malaysia or Bahasa Melayu exemption assessment as set by the University, for non-citizen candidates.
 - v. The *Bahasa Malaysia* or *Bahasa Melayu* requirement may be waived for a candidate who has pursued a programme of study and has been conferred

a degree from a Local and Private Institute of Higher Learning where the medium of instruction used was the national language.

3. DURATION OF STUDY

This programme shall extend over a minimum period of six (6) semesters and a maximum period of eight (8) semesters.

4. STRUCTURE OF PROGRAMME OF STUDY

(1) Programme Learning Outcomes:

At the end of the Doctor in Orthodontics programme, the graduates must be able to:

- (i) Integrate scientific evidence-based knowledge in managing and solving problem in Orthodontics.
- (ii) Manage clinical problems related to orthodontic leading to planning and execute the treatment prescribed.
- (iii) Perform rapport with the dental team and partnerships with relevant industry and the community in promoting oral health and orthodontic treatment.
- (iv) Integrate the relevant legal requirements and professional ethics to the practice of Orthodontics by demonstrating good values and attitudes in patient management and other professional activities.
- (v) Communicate effectively with colleagues, other healthcare professionals, relevant agencies, patients and the community; and practice good leadership and effective team working skills in promoting oral health.
- (vi) Critically appraise and utilize advances in scientific knowledge and technology in decision-making pertaining to evidence-based patient care, design and execute research and disseminate its output in the specialty of Orthodontics.
- (vii) Integrate information for lifelong learning working towards clinical reasoning and professional skills in solving problems at the patient and community level.

(2) This programme shall consist of the following:

(a) Faculty Core course

(i) Research Methodology course (DVX 8001)

This course comprises of mid and advance level of Research Methodology and Biostatistics components. Students will be trained in research methodology and principles in conducting clinical and basic research. Research Methods will include issues on field, clinical and laboratory studies. Concepts in biostatistics will be covered and supplemented with hands-on session using statistical software. The students will be taught statistical methods commonly employed to enable them to perform analysis, correct interpretation, and presentation of data. Students will be trained in the application of information technology for research purposes.

(b) Programme Core Courses

(i) Dissertation (Orthodontic) (DYH 8002)

This course encompasses all aspects of research from development of a research proposal to submission of a research write-up in the form of research dissertation. An experienced supervisor in research will supervise the trainee in the specialty of Orthodontics. They will be able to independently conduct research work in the 1st year to 3rd year in accordance with ethics and moral in research. At the middle of the final year, they will be able to submit their research for critical evaluation by internal and external examiners and able to defend their research output. In due process they may be able to send their research for publication in either local or international journal.

(ii) Orthodontic (DYH 8003)

Clinical training will start with seminars, clinical session, journal club and multidisciplinary combined clinics in the Year I and continues up to Year III. This specialty training in orthodontic involves theoretical and clinical instructions in orthodontic treatment and their scientific basis. Laboratory techniques and procedures are included to complement the clinical management of patients. Emphasis is also placed on the relationship of Oral and Maxillofacial Surgery, Periodontology,

Prosthodontics, Endodontic, Paediatric Dentistry and other relevant clinical disciplines to Orthodontics. The course will also involve clinical audit to enhance the quality of care for the patients.

Training is also aimed to provide adequate knowledge and experience in designing and conducting a research project to demonstrate the application of scientific methods to a problem relevant to orthodontics. The students are required to undergo clinical attachment or clinical observerships for about 8 to 9 weeks at recognised orthodontic centres abroad such as the United Kingdom in the second semester of 2nd year. In summary this programme is designed to prepare a higher clinical doctorate programme in orthodontics for the dental graduates. This course is also designed to prepare students for the Membership in Orthodontics of the Royal Colleges of Surgeons in United Kingdom.

- (c) The scope of the programme is given in the Course Proforma and Course Information as given by the department carrying out the specialty programme.

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. ACADEMIC SUPERVISION

The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of other supervisor(s) may be required for the research component.

7. FIELD OF RESEARCH

- (i) The determination of the field of research shall be done prior to the candidate's embarkation on research work.
- (ii) The candidate is required to satisfactorily complete the research proposal presentation and candidature defense during the course of the research project.

8. SUBMISSIONS

- (i) A candidate shall submit his/her research report at least ONE month before the commencement date of Dissertation (Orthodontics) examination or by the date prescribed by the department.
- (ii) A candidate shall submit his/her case reports at least ONE month before the commencement date of the Final Professional examination or by the date prescribed by the department.
- (iii) A candidate shall submit his/her logbook by the date prescribed by the department prior to the examination.

9. EXAMINATION

- 1) The examinations leading to the degree of Doctor in Orthodontics (DrOrth) by clinical coursework shall be the:

- a) Research Methodology (DVX8001)

The Research Methodology examination shall be held at the end of Semester 1, Year 1 of the programme of study.

- b) Dissertation (Orthodontics) DYH8002

- The examination for Dissertation (Orthodontics) shall be held at the end of Semester 1, Year 3 of the programme of study. No candidate shall be permitted to sit for the Dissertation (Orthodontics) examination unless he/she has:
- satisfactorily completed the research proposal presentation, candidature defense presentation and thesis seminar presentation.
- submitted his/her Dissertation not later than **ONE** month before the Dissertation (Orthodontics) examination.

- c) Final Professional Examination DYH 8003

- i. The Final Professional examination shall be held at the end of Year 3 of the programme of study. No candidate shall be permitted to proceed to the Final Professional examination unless he/she has:

- attain at least 65% in Component A (Continuous Assessment) before a candidate is allowed to sit for Component B of the Final Professional Examination.
- submitted his/her case reports and logbook for examination by the date prescribed by the department prior to the Final Professional examination.

2) Examination Components and Allocation of Marks

a) Research Methodology (DVX8001)

The components of the research methodology course and the marks to be allocated to each component shall be as follows:

Component	Subcomponent	Allocation of Marks (Maximum)
A	Assignment report	50%
B	Examination	50%
Grand Total		100%

To pass the course, the candidate must obtain 65% or more of the marks for each component.

b) Dissertation (Orthodontics) (DYH8002)

The components of the Dissertation (Orthodontics) examination shall be as follows:

Component	Assessment
Dissertation evaluation	Pass/Fail (refer below for grading)
<i>Viva Voce</i>	

Candidates are required to satisfy the requirements of the Faculty/University for this part of the programme and attend the viva voce for the Dissertation.

c) Final Professional Examination (DYH8003)

The components of the Final Professional examination and the marks to be allocated to each section shall be as follows:

Component	Subcomponent	Methods	Allocation of Marks (Maximum)
A	Continuous assessment* (<u>Year I</u>)	i. OSCE (8%) ii. Written test (8%) iii. Work based assessment (WBA) (2%)	18%
	Continuous assessment* (<u>Year II</u>)	i. Written test (8%) ii. WBA (3%)	11%
	Continuous assessment* (<u>Year III</u>)	i. Structural clinical reasoning (8%) ii. WBA (3%)	11%
	Total		40%
B	Theory paper		20%
	Clinical/Practical	OSCE	10%
		Clinical case history	10%
		Structural clinical reasoning	10%
		General viva	10%
	Total		60%
Grand Total			100%

*If a candidate fails the continues assessment (score below 65%), a remedial viva will be conducted to access the topic/question that the candidate scored below 65%. If the candidate passes the remedial

viva, the marks will be rounded off to 65%. If the candidate fails, the remedial viva, the original marks will be maintained.

3) Examination Assessment

Marking Scheme

- a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	
70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail
55.00 -59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

- b) For the Dissertation (Orthodontics) Examination:

The committee of examiners shall consider the examiner reports for dissertation, candidate dissertation and *viva voce* examination according to **University of Malaya Rules and Regulations (Doctorate Degree) 2019** to recommend whether the candidate

- i) will be awarded a distinction

- ii) has achieved sufficient academic merit to be awarded a degree without the need to make amendments/corrections.
- iii) has achieved sufficient academic merit to be awarded a degree subject to the candidate making minor corrections in a period not exceeding three (3) months and confirmed by the supervisor.
- iv) has achieved sufficient academic merit to be awarded a degree subject to the candidate making major corrections in a period not exceeding six (6) months and confirmed by the supervisor and internal examiner.
- v) is required to do further research and submit a dissertation for re-examination within six (6) to twelve (12) months.
- vi) does not achieve academic merit and recommends to the committee of examiners that the candidate has failed in dissertation examination and is not allowed to submit a dissertation for re-examination.

4) Requirements for Passing an Examination

a) Research Methodology (DVX8001)

A candidate shall be deemed to have passed the examinations prescribed below if he/she has obtained:

At least 65% marks for each of the component (A and B); and 65% or more of the aggregate marks for both component A and component B.

b) Dissertation (Orthodontics) (DYH8002)

A candidate shall be deemed to have passed the examinations prescribed below if he/she has obtained:

- i) has achieved sufficient academic merit to be awarded a distinction; or a degree without the need to make amendments/corrections; or a degree subject to the candidate making minor/major corrections in a period not exceeding the time stipulated by the committee of examiners

and confirmed by the supervisor(s) and internal examiner (where required) (see above); AND

- ii) presented the research finding at least once in any research conference; AND
- iii) has submitted a manuscript in a peer-reviewed publication (indexed as determined by the Faculty/University).

(c) Final Professional Examination (DYH8003)

A candidate shall be deemed to have passed the examinations prescribed below if he/she has obtained:

- i) at least 65% in Component A (Continuous Assessment).
- ii) at least 65% for each of the component B, that is subcomponent 1 and subcomponent 2 separately. The aggregate mark for subcomponent 1 and subcomponent 2 must be at least 65%.

5) Repeating an Examination

a) Research Methodology (DVX8001) Re-Examination

A candidate who has not achieved the requirement shall be required to re-sit the examination and obtain at least 65% mark, within the same candidature period.

b) Dissertation (Orthodontics) (DYH8002) Re-Examination

- (i) A candidate's dissertation that is deemed unsatisfactorily by the Committee of Examiners may be referred for further work over periods of time to be determined by the Committee of Examiners except that such periods of time as determined, shall not exceed one year on any one occasion. At the end of the prescribed period the candidate shall be required to re-submit the dissertation for re-examination.
- (ii) A candidate who failed to submit his/her dissertation by the end of a prescribed period for re-examination or whose dissertation failed to satisfy the Committee of Examiners after re-submission,

shall be deemed to have failed the re-examination in the Research (Orthodontics).

- (iii) A candidate shall not be permitted to submit the dissertation for re-examination on more than two occasions.
- (iv) A candidate who fails the Dissertation re-examination on the second occasion shall be deemed to have failed the Dissertation and shall not be permitted to repeat the programme of study except in special circumstances on the recommendation of the Faculty of Dentistry and with the approval of Senate.
- (v) A candidate can still sit for the Final Professional Examination of the Orthodontics course if he/she has not passed this Dissertation course, however he/she cannot graduate.

c) Final Professional (DYH8003) Re-Examination

- (i) A candidate who has failed any of the subcomponents of Component A of the Final Professional Examination may be granted a provisional pass in the subcomponent that he/she has passed and be required to re-sit on at most two occasions, only the subcomponent that he/she has failed after repeating such parts of the course over a period of time as may be determined by the Committee of Examiners and approved by the Faculty. A candidate who failed Component A (that is failed any or all of the subcomponents) is not allowed to take Component B of the Final Professional Examination.
- (ii) A candidate who has failed Component B (that is failed either subcomponent 1 or subcomponent 2 or both) of the Final Professional Examination may be permitted for a re-examination on two occasions after repeating such parts of the course over a period of time as may be determined by the Committee of Examiners and approved by the Faculty. The candidate who failed must be re-examined for both subcomponent 1 and subcomponent 2 of Component B in one seating.
- (iii) The Final Professional Re-examination shall be assessed and graded in the same manner as prescribed for the main Final Professional Examination. The candidate is not required to re-sit

Component A if deemed to have passed this component (must achieve at least 65%). The marks of the Final Professional Re-examination will only be based on Component B.

- (iv) A candidate who fails the Final Professional Re-examination on the second occasion shall be deemed to have failed the Final Professional Examination and shall not be permitted to repeat the programme of study except in special circumstances on the recommendation of the Faculty of Dentistry and with the approval of Senate.

12. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction in the Final Professional examination if he/she has:

- a) obtained 80% or more of the aggregate marks of the components and at least 75% or more of the marks of each component in the prescribed examinations;
- b) not failed any component/subcomponent of the prescribed examinations; and
- c) not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

13. AWARD OF THE DEGREE

A candidate may be awarded the degree of Doctor in Orthodontics (DrOrth) if he/she has:

- a) Satisfactorily fulfilled the requirements for course in Research Methodology
- b) Satisfied the Board of Examiners for the Research (Orthodontics)
- c) Passed the Final Professional Examination for the degree of Doctor in Orthodontics

AND achieved the other Requirements below:

- a) Presented research finding at least once in any research conference.
- b) Submitted a manuscript for publication related to the research.

- c) Satisfactory completion of a Clinical Audit related to Orthodontics.
- d) Satisfactory completion of Clinical Attachment as prescribed by the Committee of the Discipline and approved by the Dean.

14. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Doctor in Orthodontics (DrOrth) (with Distinction) if he/she has:

- e) passed with at least Distinction in the Research Methodology course; AND awarded a distinction in the Dissertation (Orthodontics) course; AND passed with Distinction in the Final Professional examination for the degree of Doctor in Orthodontics (DrOrth) as prescribed above; and
- f) not repeated the Research Methodology examination, Dissertation (Orthodontics) examination or the Final Professional examination or any part of the programme of study leading to the Dissertation (Orthodontics) examination or the Final Professional examination except on medical or compassionate grounds acceptable to the Faculty.
- g) Not failed any component/subcomponent of the prescribed examinations;
- h) completed the programme of study in a period not exceeding six (6) ordinary semesters from the initial semester of candidate registration.

DOCTOR IN PROSTHODONTICS

MODE: BY CLINICAL COURSEWORK

1. PROGRAMME OF STUDY

Doctor in Prosthodontics programme is a clinical coursework with 30% research component. This specialty training in prosthodontics involves the scientific basis of the theoretical, laboratory and operative techniques, and clinical instructions in fixed and removable prosthodontics. Training is also aimed to provide adequate knowledge and experience in designing and conducting a research project.

2. ADMISSION REQUIREMENTS

- (1) A Bachelor of Dental Surgery or an equivalent degree in Dentistry AND a Master degree in Oral Science or equivalent Master degree from local and foreign universities AND have at least two (2) years Bachelor degree post registration clinical experience in dentistry. Excluding training period during master program; AND
- (2) Registered with the Malaysian Dental Council (MDC) and holds a current Annual Practicing Certificate (APC) or registered with dental regulatory body in another country and eligible to be granted a Temporary Practicing Certificate (TPC) by the MDC; AND
- (3) Other requirements:
 - (a) Pass the interview (exemption may be given for candidates who have obtained the degree from the Master of Oral Science, UM).
 - (b) Fulfil the requirements for admission as prescribed by the Faculty.
- (4) English Language Requirement for Malaysian and non-Malaysian candidates with foreign dental degree (any ONE of the followings):
 - (a) Score a minimum of 600 (written paper), score 250 (computer test) or score of 100 (internet test) in the Test of English as a Foreign Language (TOEFL); OR

- (b) Obtain at least Band 6 in the International English Language System (IELTS); OR
- (c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR
- (d) English Language subject at A-level with Grade C and above; OR
- (e) Cambridge English: First (FCE) grade C and above; OR
- (f) Cambridge English: Advance (CAE) Grade C and above; OR
- (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
- (h) Malaysian University English Test (MUET) with minimal band 4.

3. DURATION OF STUDY

This programme shall extend over a minimum period of six (6) semesters and a maximum period of eight (8) semesters.

4. STRUCTURE OF PROGRAMME OF STUDY

(1) Programme Learning Outcomes:

At the end of the Doctor in Prosthodontics programme, graduates are able to:

- a) Apply scientific evidence-based knowledge for the safe, effective, and efficient practice of Prosthodontics at specialist level (C6, P4)
- b) Practice advanced Prosthodontics independently, safely, and effectively with good practical, technical and clinical skills (P5, A5)
- c) Engage patients and community in making decisions about their health with empathic social skills and social responsibility (P4, A4)
- d) Apply professional ethics, values, attitudes, and legal requirement relevant to the practice of Prosthodontics (P5, A5)

- e) Communicate effectively with colleagues, health care professionals, patients, and the community; practice effective team working and demonstrate leadership quality (C4, P5)
 - f) Critically appraise and utilise advances in scientific knowledge in the management of Prosthodontics patients (C6, P5, A5)
 - g) Manage information, engage in life-long learning and continuing professional development (P5)
 - h) Conduct research independently (P6, A4)
- (2) This programme shall consist of the following components:
- a) Faculty Core Course:
 - i) Research Methodology (DVX8001)

This course comprises of mid and advance level of Research Methodology and Biostatistics components. Students are introduced to relevant research methodology and principles in conducting clinical, applied and basic research. Concepts in biostatistics are covered and supplemented with hands-on session using statistical software which enables students to perform relevant analysis, correct interpretation and presentation of data. The course also provides opportunities for students to practice intellectual thinking and scientific writing.
 - b) Programme Core Course:
 - i) Dissertation (Prosthodontics)

Research component leading to the submission of dissertation.
 - ii) Prosthodontics I

Teaching, training and coursework in Fixed and Removable Prosthodontics including maxillofacial prosthodontics and conducting clinical audit.

iii) Prosthodontics II

Teaching, training and coursework in Fixed and Removable Prosthodontics including maxillofacial prosthodontics. Clinical attachment in the specialty option, in the Faculty of Dentistry, Universiti Malaya or clinical training centre recognised by the University over a period of two (2) semesters.

5. COURSE REGISTRATION

Registration of courses shall be completed one week before the class begins, within the registration week. Candidates who do not complete the registration within that period are not allowed to follow the course.

6. ACADEMIC SUPERVISION

- (1) The appointment of a supervisor shall be done at a point when a candidate's field of research is approved. Where necessary, the appointment of co-supervisor(s) may be required for the research component.
- (2) The consultant appointed to the candidate shall also submit a report on the candidature clinical progress to the Head of Department at the end of each posting and six months' interval for a posting longer than six months.

7. FIELD OF RESEARCH

The determination of field of research shall be done prior to candidate's embarkation on research work

8. SUBMISSIONS

- (1) A candidate shall submit his/her dissertation in semester five (5) by the date prescribed by the department prior to the examination.
- (2) A candidate shall submit his/her logbook by the date prescribed by the department prior to the examination.

9. EXAMINATION

- (1) The examinations leading to the degree of Doctor of Prosthodontics by clinical coursework shall be the:

- (a) Part I Professional Examination (at the of the Prosthodontics I programme);
 - (b) Dissertation;
 - (c) Final Professional Examination (at the end of the Prosthodontics II programme).
- (2) No candidate shall be permitted to sit for the Part I Professional Examination unless he/she has satisfied the clinical requirement set by the Department.
- (a) Submitted his/her logbook and case reports for examination prior to the Part I Professional Examination.
- (3) No candidate shall be permitted to sit for the Final Professional Examination unless he/she has:
- (a) Passed the Part I Professional Examination
 - (b) Submitted his/her logbook and case reports for examination prior to the Final Professional Examination.
- (4) Candidates shall satisfy the requirements for dissertation examination before sitting for examination of the research component.
- (5) Examination of components and allocations of marks.
- (a) Part I Professional Examination

The component of the Part I examination and the marks to be allocated to each component shall be as follows:

	Components	Weightage
Section A	Theory & Clinical components	60%
Section B	Continuous assessment	40%

- (b) Final Professional Examination

The component of the Final Professional examination and the marks to be allocated to each component shall be as follows:

	Components	Weightage
Section A	Clinical Exam	60%
Section B	Continuous Assessment	40%

(c) Dissertation

The component of the dissertation examination and the marks to be allocated to each component shall be as follows:

	Components
Formative Assessment	Evaluation/ Feedbacks/ Candidature Defence
Examination	i. Dissertation Evaluation ii. Viva voce

(6) Examination assessment

- (a) The marks in the examination shall be graded according to the following scheme:

Marks	Grade	Grade Point	Meaning
90.00 -100.00	A+	4.00	High Distinction
80.00 – 89.99	A	4.00	Distinction
75.00 – 79.99	A-	3.70	
70.00 – 74.99	B+	3.30	Pass
65.00 – 69.99	B	3.00	
60.00 – 64.99	B-	2.70	Fail

55.00 -59.99	C+	2.30	
50.00 – 54.99	C	2.00	
45.00 – 49.99	C-	1.70	
40.00 – 44.99	D+	1.30	
35.00 – 39.99	D	1.00	
00.00 – 34.99	F	0.00	

(7) Requirements for Passing an Examination

A candidate shall be deemed to have passed the examinations prescribed below if he/she has obtained:

(a) Part 1 Professional Examination:

- (i) The candidate must obtain 65% or more of the marks for each section A and B and
- (ii) 65% or more of the aggregate combined marks for section A and B

(b) Final Professional Examination

- (i) The candidate must obtain 65% or more of the marks for each section A and B and
- (ii) 65% or more of the aggregate combined marks for section A and B.

(c) Dissertation

- a) The dissertation shall be examined, evaluated and recommended by each examiner according to **University of Malaya Rules and Regulations (Doctorate Degree) 2019** as to whether the candidate:
 - (i) is awarded a distinction in dissertation;
 - (ii) has attained sufficient academic merit without any amendments/corrections;

- 
- (iii) has attained sufficient academic merit for the candidate to make minor corrections within a period of not exceeding three (3) months and verified by the Supervisor;
 - (iv) has attained sufficient academic merit for the candidate to make major corrections within a period of not exceeding six (6) months and verified by the Supervisor and Internal Examiner;
 - (v) is required to undertake further work and submit the dissertation for re-examination within the period of six (6) to twelve (12) months;
 - (vi) has not attained academic merit and may recommend to the Committee of Examiners that the candidate has failed in the dissertation examination and is not allowed to submit the dissertation for re-examination.
- b) Mark and grade will not be given in the examination of a dissertation.
- c) The candidate shall be required to attend a *viva voce* with respect to his dissertation. The Committee of Examiners has the authority to determine the method of conducting a *viva voce* of the dissertation of a candidate. The Committee of Examiners may, if necessary, invite a teacher at the University who has the experience and expertise related to the field of research of the candidate to attend the meeting of the Committee of Examiners and the *viva voce* examination of the candidate concerned.

(8) Repeating an Examination

(a) Part I Professional Re-Examination

- (i) A candidate who has not achieved the above requirement shall be required to repeat the whole Prosthodontic I course and to re-sit the Part 1 Professional Examination.
- (ii) Continuous assessment marks shall be determined accordingly by the department.
- (iii) A candidate who failed the Part 1 Professional Examination twice consecutively will be deemed as fail with no return.

(b) Final Professional Re-Examination

- (i) A candidate who has not achieved the above requirement shall be required to repeat the whole Prosthodontic II course and to re-sit the Final Professional Exam.
 - (ii) Continuous assessment marks shall be determined accordingly by the department.
 - (iii) A candidate who failed the Final Professional Examination twice consecutively or has exceeded the maximum candidature period will be deemed as a failure with no return.
- (c) Dissertation Re-Examination
- (i) A candidate's research dissertation that is deemed unsatisfactorily by the Committee of Examiners may be referred for further work over a period of time to be determined by the Committee of Examiners.
 - (ii) A candidate who failed to submit his/her research dissertation by the end of a prescribed period for re-examination or whose research dissertation after re-submission, fails to satisfy the Committee of Examiners, shall be deemed to have failed the re-examination in the research dissertation, unless in certain circumstances an extension of not more than three (3) months to the specified period has been approved by the Dean of the Faculty. Any appeal after this extended period is subject to the approval of the Senate on the recommendation of the Committee of Examiners.

10. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A candidate may be awarded a pass with Distinction in the Part I Examination and the Final Professional Examination if he/she has:

- (a) Obtained 80% or more of the aggregate combined marks of the components and at least 75% or more of the marks of each component in the prescribed examinations;
- Not failed any component of the prescribed examinations; and;
- (b) Not repeated the prescribed examinations, any component of the prescribed examinations or any part of the programme of study leading to the prescribed examinations, except on medical or compassionate grounds acceptable to the Faculty.

11. AWARD OF THE DEGREE

A candidate may be awarded the degree of Doctor of Prosthodontics if he/she has:

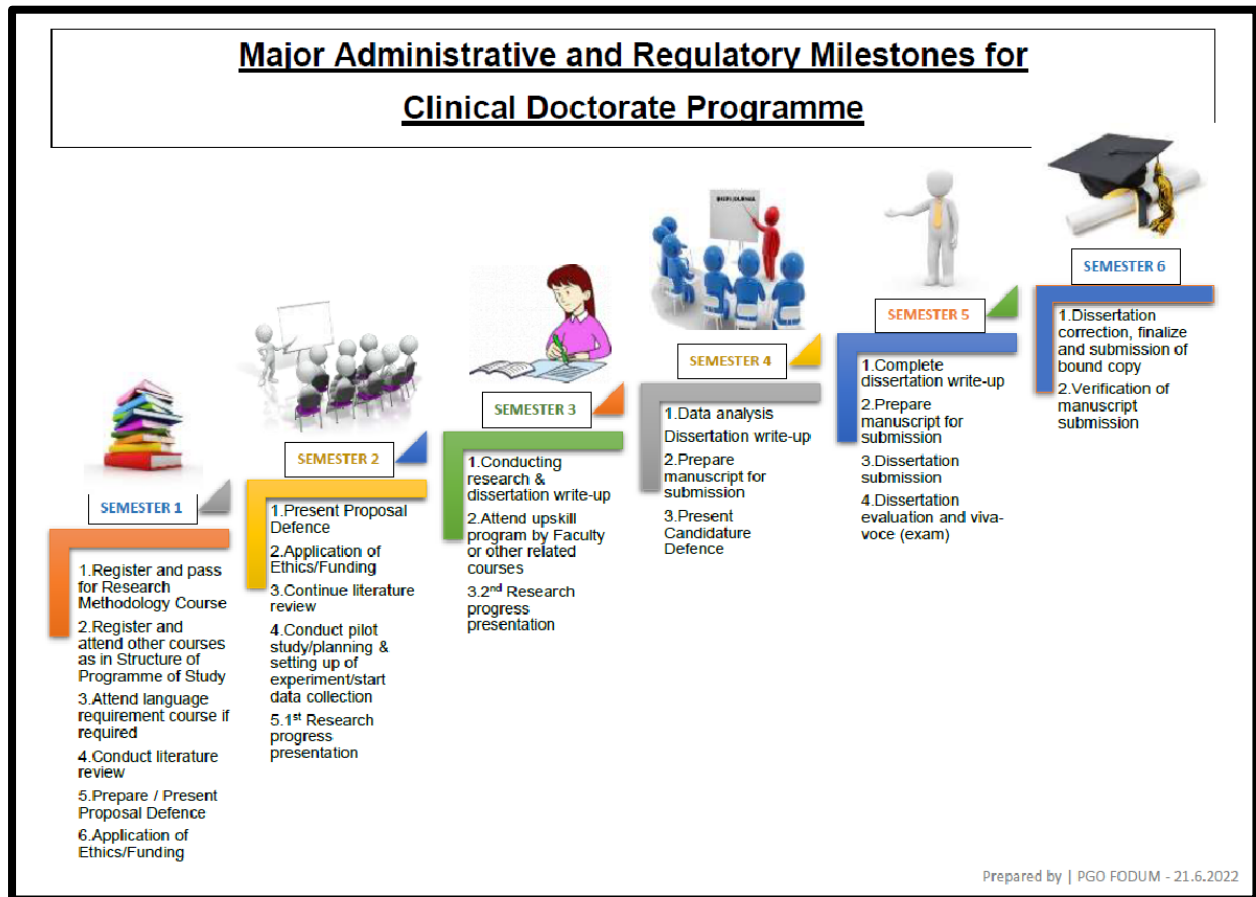

- (a) passed the Part I and Final Professional Examination for the degree of Doctor of Prosthodontics as prescribed above; and
- (b) passed the dissertation component; and
- (c) satisfactorily fulfilled the requirements of Research Methodology course.

12. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Doctor of Prosthodontics (with Distinction) if he/she has:

- (a) Passed with Distinction in the Part I and Final Professional Examination for the degree of Doctor of Prosthodontics as prescribed above; and
- (b) Not repeated the Part I and Final Professional Examination or any part of the programme of study except on medical or compassionate grounds acceptable to the Faculty.
- (c) Obtaining a distinction dissertation results in a dissertation examination.

GRADUATE ON TIME (GOT) DISSERTATION SCHEDULE FOR CLINICAL DOCTORATE CANDIDATES

MASTER OF DENTAL SCIENCE

MODE: BY RESEARCH

1. PROGRAMME COORDINATOR

Associate Professor Dr. Chen Yeng
Department of Oral & Craniofacial Sciences

2. COURSE COORDINATOR

- **Research Methodology (DSX7001):**

- Associate Professor Dr. Yap Lee Fah,
Department of Oral & Craniofacial Sciences

3. PROGRAMME OF STUDY

The Master of Dental Science programme offered is a research programme in which the research component comprises 100% of the whole programme of study.

4. ADMISSION REQUIREMENTS

The Minimum Qualifications for Admission:

- (1) Bachelor of Dental Surgery or equivalent; or
- (2) Bachelor's Degree with honours in any field of Science for candidates who choose a non-clinical field;
- (3) Preference is given to candidates with a CGPA of at least 3.0 or above; or;
- (4) Bachelor of CGPA 2.7 to 2.99 may be considered if it meets at least one of the following criteria:
 - (a) Have at least three (3) years working experience in a related field; or
 - (b) Produce publications in related fields; or
 - (c) Is a scholarship recipient; or
 - (d) Is a graduate of the University of Malaya or;

(5) Bachelor of CGPA 2.5 to 2.69 may be considered if it meets at least two (2) of the criteria in (a) to (d) above.

(6) Other qualifications approved by the Senate from time to time.

Other Requirement:

A candidate may be required to pass an assessment for admission which has been decided by the Faculty.

English Language Requirements:

Fulfils English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the followings):

(a) Obtained a minimum score of 550 (paper based test); or score of 213 (computer based test) or score of 80 (internet test) in the Test of English as a Foreign Language (TOEFL); OR

(b) Obtained a minimum score of band 5.5 or band according to programme standard in the International English Language System (IELTS); OR

(c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR

(d) English Language subject at A-level with Grade C and above; OR

(e) Cambridge English: First (FCE) grade C and above; OR

(f) Cambridge English: Advance (CAE) Grade C and above; OR

(g) Cambridge English: Proficiency (CPE) Grade C and above; OR

(h) Malaysian University English Test (MUET) with minimal band 4

5. DURATION OF STUDY

This programme shall extend over a minimum period of two (2) semesters and a maximum period of eight (8) semesters.

6. STRUCTURE OF PROGRAMME OF STUDY

- (1) This programme is a research programme leading to the submission of a dissertation and the format is as provided in the University of Malaya (Master's Degree) Rules and Regulations 2019.
- (2) A candidate has to attend and pass the programme compulsory course, Research Methodology (DMX7001).

7. INITIAL REGISTRATION

A candidate of a Master's programme of study by Research may register initially for the said programme of study at any time latest by fourteenth lecture week in the semester applied and the full fees will be imposed for the semester in which registration is done. The candidate is required to register in the following semester if the offer is accepted after fourteenth lecture week in a semester.

8. RESEARCH SUPERVISION

- (1) Research programmes are regulated by the Supervision Policy of Postgraduate Candidate, University of Malaya 2020.
- (2) The appointment of a supervisor shall be done at a point a candidate's field of research is approved.
- (3) Where necessary, the appointment of co-supervisor(s) and/or consultant(s) may be done.
- (4) The supervisor and co-supervisor shall be appointed at the time specified in the relevant Schedule to these Regulations for the particular programme of study. The consultant shall be appointed at the same time as the appointment of the supervisor or such other time to the Dean who shall then forward it to the Faculty.
- (5) The supervisor, co-supervisor and consultant appointed for a candidate of Master of Dental Science programme shall submit a periodic progress on the candidate each semester to the Dean who shall then forward it to the Faculty.
- (6) A candidate whose progress is not satisfactory may have his/her candidature terminated by the Senate.

9. FIELD OF RESEARCH

- (1) The Faculty shall approve the field of research for a dissertation of a candidate as specified in the relevant Schedule to these regulations for the particular programme of study.
- (2) The title of a dissertation shall be submitted to the Faculty for approval when the candidate gives notice for submission of his/her dissertation under the regulation of these Regulations.

10. SUBMISSIONS

- (1) The dissertation shall be written in English.
- (2) A candidate shall give a notice in writing to the Registrar of his/her intention to submit his/her dissertation for examination.

11. EXAMINATION

A dissertation shall be examined, assessed and

- (a) awarded a Pass with Distinction, Pass, or Fail; OR
- (b) referred for corrections without re-examination; OR
- (c) referred for future work and be submitted for re-examination.

Marks, grade and credit shall not be awarded in the examination of a dissertation.

12. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A dissertation may be awarded a Pass with Distinction if:

- (a) it is recommended for a Pass with Distinction in the reports of the examiners(s);
- (b) it is recommended for a Pass with Distinction by the Committee of Examiners;
- (c) it is completed and submitted by the candidate for examination during a period not exceeding four semesters from the initial date of registration of the candidate; and

- (d) it has not been submitted for re-examination.

13. AWARD OF THE DEGREE

For the purposes of graduation, a candidate

- (a) must attain a pass in his/her dissertation examination;
- (b) must pass the viva voce and other tests that are prescribed;
- (c) is required to publish one (1) article indexed by Thomson Reuters Web of Science Expanded (WoS) prior to graduation;
- (d) fulfil other requirements as prescribed by the Faculty for his/her Master of Dental Science programme; and
- (e) fulfil the language requirements for his/her Master of Dental Science programme.

14. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Master of Dental Science (with Distinction) if he has:

- (a) fulfil the requirements for graduation mentioned; and
- (b) submitted a dissertation that is recommended for a Pass with Distinction by the Committee of Examiners.

GRADUATE ON TIME (GOT) SCHEDULE FOR MASTERS BY RESEARCH CANDIDATES

Semester	Activities	Output/Milestone
1.	<ul style="list-style-type: none"> ● Attend Research Methodology Course ● Attend Bahasa Melayu course* ● Attend English language course** ● Familiarization with and use of EndNote, Turnitin, editing software, data analysis and research tools ● Attend GOT seminar ● Conduct Literature Review ● Proposal Defence 	<ul style="list-style-type: none"> ● Completed Research Methodology course ● Fulfilment of language requirements ● Presented research proposal
2.	<ul style="list-style-type: none"> ● Expand research proposal to drafts of chapter 1, 2 & 3 ● Conduct pilot study/ planning & setting up of experiment/ start data collection ● Begin data analysis ● Attend at least 2 courses in Upskill Program ● Prepare and present Candidature Defence ● Prepare for Publication 1 	<ul style="list-style-type: none"> ● Completed outline of dissertation ● Submission of Publication 1 ● Completed Candidature Defence
3.	<ul style="list-style-type: none"> ● Finalise chapters 1, 2 & 3 ● Finalise data analysis ● Begin chapter 4 & 5 ● Attend at least 1 courses in Upskill Program ● Submit 3 Months Notice 	<ul style="list-style-type: none"> ● Completed chapters 1, 2 & 3 ● Draft of chapters 4 & 5
4.	<ul style="list-style-type: none"> ● Attend Thesis Bootcamp ● Finalize and submit dissertation ● Committee of Examiners meeting 	<ul style="list-style-type: none"> ● Submission of dissertation ● Outcome of Committee of Examiners meeting.

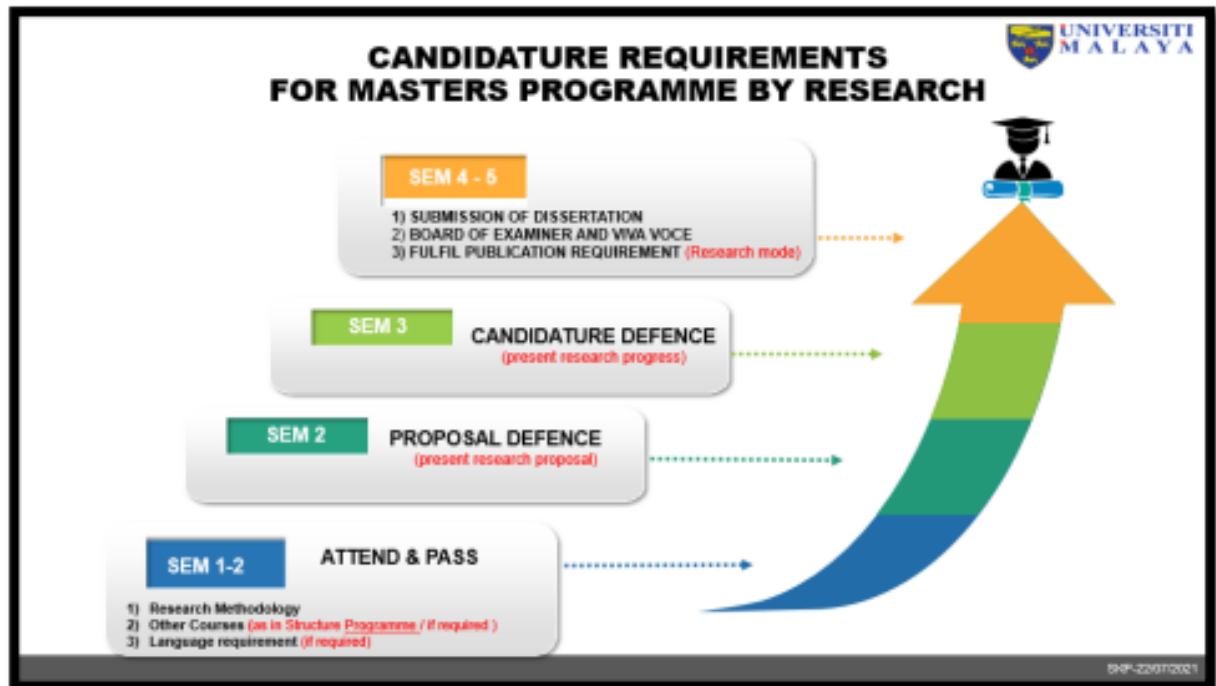

Notes:

Monitoring Panel

1. Chairman & 1 member who is an expert in the field and a supervisor. A fourth member is allowed to be appointed if necessary.
2. The same panel should follow through the proposal presentation and Candidature Defence
3. It is strongly recommended that one member is appointed as internal examiner.
4. The main responsibilities of the panel should include the following:-
 - (a) Advise the student to improve the research proposal.
 - (b) Monitor the progress of the student
 - (c) Improve the thesis plan.

*Applicable to all international candidates.

**Applicable to international candidates who are writing their dissertation in languages other than English.

DOCTOR OF PHILOSOPHY

MODE : BY RESEARCH

1. PROGRAMME CLASSIFICATION

The Doctor of Philosophy programme offered is a research programme in which the research component comprises 100% of the whole programme of study.

2. PROGRAMME COORDINATOR

Dr. Siti Amalina binti Inche Zainal Abidin
Department of Oral & Craniofacial Sciences

3. COURSE COORDINATOR

- **Research Methodology (DSX7001):**
 - Associate Professor Dr. Yap Lee Fah,
Department of Oral & Craniofacial Sciences

4. ADMISSION REQUIREMENTS

(1) The minimum qualifications for admission:

- a) A Master's Degree with Honours/Distinction in Dentistry, Medicine or any science discipline; OR
- b) A Bachelor's Degree with Honours in Dentistry and any science discipline;
AND
- c) Evidence of adequate training and ability to undertake the degree programme of study.

Admission by a person who possesses a bachelor's degree with distinction (CGPA 3.7 and above or equivalent), subject to monitoring of the candidate's progress and a presentation of candidate's research progress in one semester at a seminar within two semesters from the date of initial registration.

(2) English Language Requirements:

Fulfil English Competency Requirement for Malaysian and non-Malaysian citizens who obtain qualifications from University or Higher Education Institute outside Malaysia (any ONE of the followings):

- (a) Obtained a minimum score of 600 (Paper Based Test); or score of 250 (computer based-test) or score of 100 (internet test) in the Test of English as a Foreign Language (TOEFL); OR
- (b) Obtained a minimum score of band 6 or band according to programme standard in the International English Language System (IELTS); OR
- (c) Pearson Test of Academic English (PTE Academic) with minimum score of 42; OR
- (d) English Language subject at A-level with Grade C and above; OR
- (e) Cambridge English: First (FCE) grade C and above; OR
- (f) Cambridge English: Advance (CAE) Grade C and above; OR
- (g) Cambridge English: Proficiency (CPE) Grade C and above; OR
- (h) Malaysian University English Test (MUET) with minimal band 5

5. DURATION OF STUDY

This programme of study shall extend over a minimum period of four (4) semesters and a maximum period of twelve (12) semesters.

6. STRUCTURE OF PROGRAMME OF STUDY

- (1) This programme is a research programme leading to the submission of a dissertation and the format is as provided in the University of Malaya (Doctorate Degree) Rules and Regulations 2019.
- (2) A candidate has to attend and pass the programme compulsory course, Research Methodology (DVX8001).

7. INITIAL REGISTRATION

A candidate of a PhD's programme of study by Research may register initially for the said programme of study at any time latest by fourteenth lecture week in the semester applied and the full fees will be imposed for the semester in which registration is done. The candidate is required to register in the following semester if the offer is accepted after fourteenth lecture week in a semester.

8. RESEARCH SUPERVISION

- (1) Research programmes are regulated by the Supervision Policy of Postgraduate Candidate, University of Malaya 2020.
- (2) The appointment of a supervisor shall be done at a point a candidate's field of research is approved.
- (3) Where necessary, the appointment of co-supervisor(s) and/or consultant(s) may be done.
- (4) The supervisor and co-supervisor shall be appointed at the time specified in the relevant Schedule to these Regulations for the particular programme of study. The consultant shall be appointed at the same time as the appointment of the supervisor or such other time to the Dean who shall then forward it to the Faculty.
- (5) The supervisor, co-supervisor and consultant appointed for a candidate of Doctor of Philosophy programme shall submit a periodic progress on the candidate for each semester.
- (6) A candidate whose progress is not satisfactory may have his/her candidature terminated by the Senate.

9. FIELD OF RESEARCH

- (1) The Faculty shall approve the field of research for a thesis of a candidate as specified in the relevant Schedule to these regulations for the particular programme of study.

- 
- (2) The title of a thesis shall be submitted to the Faculty for approval when the candidate gives notice for submission of his/her thesis under the regulation of these Regulations.

10. SUBMISSIONS

- (1) The thesis shall be written in English.
- (2) A candidate shall give a notice in writing to the Registrar of his/her intention to submit his/her thesis for examination.

11. EXAMINATION

A thesis shall be examined, assessed and

- (a) awarded a Pass with Distinction, Pass, or Fail; OR
- (b) referred for corrections without re-examination; OR
- (c) referred for future work and be submitted for re-examination.

Marks, grade and credit shall not be awarded in the examination of a thesis.

12. AWARD OF PASS WITH DISTINCTION FOR THE EXAMINATION

A thesis may be awarded a Pass with Distinction if:

- (a) it is recommended for a Pass with Distinction in the reports of the examiners(s);
- (b) it is recommended for a Pass with Distinction by the Committee of Examiners;
- (c) it is completed and submitted by the candidate for examination during a period not exceeding six semesters from the initial date of registration of the candidate; and
- (d) it has not been submitted for re-examination.

13. AWARD OF THE DEGREE

For the purposes of graduation, a candidate must

- (a) attain a pass in his/her thesis examination;
- (b) pass the viva voce;
- (c) candidates must show proof of acceptance for publication of two (2) article in journals indexed by Thomson Reuters Web of Science (WOS) (according to the criteria set in the publication guidelines), prior to graduation.
- (d) fulfil other requirements as prescribed by the Faculty for his/her Doctor of Philosophy programme; and
- (e) fulfil the language requirements for his/her Doctor of Philosophy programme

14. AWARD OF THE DEGREE WITH DISTINCTION

A candidate may be awarded the degree of Doctor of Philosophy (with Distinction) if he/she has:

- (a) fulfil the requirements for graduation mentioned; and
- (b) submitted a thesis that is recommended for a Pass with Distinction by the Committee of Examiners.
